

and the following vice presidents: Martin V. Peterson of Ogle county, W. H. Herick of DeWitt county, and E. E. Fullenwider of Sangamon county.

In an interview preceding the convention State's Attorney William D. Knight of Whitehall county said he advocated a Baumeister law for Illinois, one similar to the law in New York providing life imprisonment for habitual criminals on their fourth conviction. He said he was not in sympathy with the law as it is applied in Michigan where it permits life sentences for dry law violators upon the fourth conviction, but said he believed the law should apply to those found guilty of robbery, larceny, rape, murder or any of the major crimes.

Attorney General Oscar E. Carlstrom, a former state's attorney of Mercer county, and United State's Attorney George E. Q. Johnson spoke after the evening banquet. Then the visiting prosecutors were given a tour of the state's attorney's office at the State's Attorney's office at a theater party.

Carlstrom Urges Cooperation.

Attorney General Carlstrom spoke on the subject of cooperation. By cooperation, he said, authorities can compel respect for law and order and bring about that state of security which arises from the certainty of punishment that will follow the law's transgression.

Mr. Johnson said that the trend of national legislation is to invade the police power of the states. Prior to the civil war, he said, there was only the fugitive slave act in which the government took jurisdiction from the states. Later came the interstate commerce code, then the Sherman anti-trust law, followed by the Mann white slave act, the Harrison narcotic law, the Dyer act which prohibits interstate traffic in stolen automobiles, an act under which the government may prosecute officers or employees of banks, members of the federal reserve bank for mishandling money, and finally the prohibition law, he said.

Urges State Prosecution.

He declared that the federal courts are clogged and urged state legislation against narcotics and prosecutions in state courts, wherever possible, to relieve the federal courts. Federal prosecutors, he said, would be glad to cooperate and act where conspiracies involve persons in two or more states. He advised the state prosecutors to call on the federal attorney whenever they wish to bring an unwilling witness in from another state.

"After all, it is the common task of all of us to fight crime, and we should do it together," he concluded. Speakers today will include Justice Frederick R. DeYoung of the Supreme court, Frank J. Loesch, first assistant state's attorney of Cook county, and Chief Justice John J. Sullivan of the Criminal court.

CALL POLITICIAN BRAINS OF GANG IN TWO ROBBERIES

William Cripp Wood, Negro politician and real estate operator at 6000 South State street, who is blind, was named by the Woodlawn police last night as the brains of a robber band charged with holding up the Savoy ballroom, 47th street and South Parkway, and Mrs. Israel Warshawsky, daughter of Morris Eller.

Wood, his former chauffeur, William Lewis, 22 year old Negro; and his former secretary, Thelma Herndon, colored, were arrested a week ago and have since been held in the Wilmette police station. Mrs. Warshawsky's home is in Wilmette. Her jewels, valued at \$35,000, have not been recovered, excepting a pair of earrings, valued at \$2,000, which the Herndon girl was wearing.

Two others were arrested yesterday as members of Wood's band. They are John Grasse, 23 years old, 5044 Justice street, an ex-convict, and Atwood Noah, 38 years old, colored, a former policeman. Lewis, the police say, has confessed and Grasse was identified by the Savoy ballroom manager as one of the bandits who held him up.

KIDNAP WOMAN FROM SIDEWALK AND ATTACK HER

Mrs. Stella Szolonski, 27 years old, 2950 East 81st street, the mother of two children, was kidnapped early this morning by two men who dragged her screaming into an automobile at 81st street and Colek avenue and drove away. The kidnappers attacked her and thrust her from the car at 110th street and Roseland avenue, she told police when she returned to her home two hours later.

Mrs. Szolonski and Mrs. Bertha Grabowski, 27 years old, also of 2950 East 81st street, were returning from a party at St. Michael's Roman Catholic church at 83d street and South Shore drive when the two men drove up beside them and leaped out of the automobile. Mrs. Grabowski said one of the men struck her on the head with a heavy weapon as she jerked away from him. As she ran from the scene both men seized Mrs. Szolonski and forced her into the car.

Horse Costs Him \$13 Week, His Wife Gets \$5 Alimony

"His wife," Attorney Henry Tierney argued in a divorce trial yesterday, "should be entitled to at least as much support money as he pays for the upkeep of his horse, \$13 a week."

Circuit Judge Harry Fisher listened, and disagreed. He awarded Mrs. Pauline Kosof, 1815 South Clifton Park avenue, \$5 a week alimony from her husband, Simon, a peddler. She has other sources of income, it was pointed out, while the horse depends solely on his owner. Kosof's income, according to the evidence, is \$35 a week minus \$13 a week for the care of his horse.

Shot in Drink Parlor Quarrel; 4 Men Sought

Edward Androski, 30 years old, 831 Stewart avenue, a printer, was shot in the right shoulder and left hand during a quarrel with several other men in the soft drink parlor of William Dreben at 8015 Parnell avenue last night. His assailants fled and Androski was found lying on the floor by a passerby. Police were seeking Robert Noonan, who is said to have fired the shots, Dreben, and two other men. Androski was not seriously wounded.

GETS LIFE, BUT IS STILL IN JAIL 2 YEARS LATER

Awaits Court Decision on 1925 Killing.

William J. White, known as "Three Fingers Jack" more than three years ago—Dec. 13, 1925—shot and killed Policeman Ed Praume, and although under a life sentence in the penitentiary has not yet been taken to Joliet, according to an announcement yesterday by Deputy Commissioner John Siegel, who arrested him. White is by far the oldest occupant of the county jail, having been there even longer than Warden Edward J. Fogarty, who said yesterday that he cannot understand why the Supreme court has failed to act on the appeal, which has been pending for nearly two years. "I do not know why the Supreme court does not act on the case unless the papers are lost," the warden said yesterday.

Witnesses Are Scattered.

Attaches of the state's attorney's office pointed out that the crime was committed so long ago that should the Supreme court decide after nearly two years of deliberation to reverse the case it would be extremely difficult to gather the witnesses for another trial. "The state's attorney's office should have kept White busy these last two years defending himself on the various robbery charges we could have placed against him," said Deputy Po-

CRIMINAL COURT.

John La Mar, false pretenses, sentenced to two years in the Reformatory; James Jennings, assault to rape, sentenced to one to four years in Pontiac reformatory by Judge Thomas J. Lynch. Stanley Kestian and John Conrad, rape, sentenced to five years each in Pontiac reformatory by Judge G. Fred Rush.

Deputy Commissioner Siegel. "He was identified in several bank robbery cases and should have been tried on them when we had witnesses. Of course, I suppose it was figured out that he could get no more than he already had been given on the murder charge and that it would be a waste of time to try him on the other cases."

Loot Totals \$171,000.

The gang, headed by White who once received a special parole in 1924, is credited with obtaining loot totaling \$171,000. Bank robberies and pay roll stickups were the gang's specialties, according to the police.

The crime for which White was convicted occurred when Police Commissioner Siegel was in the Mannheim tavern near River Forest. An attempt was made to arrest him because he was in possession of an automobile with changed numbers. The car answered the description of one used in several robberies.

James Johnstone, an ex-convict, and companion of White, was killed at the time, and Policeman James McBride was wounded in the battle.

Convicted in January, 1927.

White was not arrested until several months after the murder. He was finally lodged in jail on March 27, 1928. He sought to delay the trial but Judge Phillip Sullivan finally forced him in front of a jury early in January, 1927, and on Jan. 21, 1927, imposed the life sentence in accordance with the verdict of the jury.

The Supreme court issued a writ of supersedeas on April 16, 1927, which prevented jail authorities from sending White to the penitentiary pending his appeal. The Supreme court has been cogitating over the case ever since.

VOTERS ASK IF CRIME ALLIANCE JOB IS FINISHED

Suggest Further Penalties for Beaten Officials.

The question of whether retirement from public office is sufficient punishment for those responsible for the alliance of crime and politics, which resulted in six special grand jury investigations, was submitted by the Wilmette voters' advisory committee to the Citizens' association in a letter mailed yesterday. The Citizens' association is asked in the communication to determine whether punishment other than retirement from public office would not be a fitting example for future officials inclined to such alliances.

"Such a body as yours, of public spirited citizens, without personal feeling or vindictiveness, should decide whether as an example the officials guilty of an alliance with criminals that has resulted in incalculable damage to the business and reputation of Chicago and Cook county, shall be punished the same as those whose criminal acts damage or hurt only an individual," the letter reads.

Cites Old Cases.

"Shall public officials loot until caught and then merely be retired temporarily to the side lines to still sit at the party council table with their remnant of a following?" "When the boodle county board

members in the eighties were sent to the penitentiary or escaped to Canada, the healthy effect was felt for years.

"But when the franchise grabbers and bootleggers were driven from the city council in the nineties, none was punished and many later were elected to other offices, notably to congress.

"In Philadelphia and Los Angeles, the country's awakening is shown by the indictment of prosecutors and police. The question for the public here is, shall we follow through or quit with an unfinished job?"

Suggests Sanitary Board Probe.

The north shore committee, which is made up of representatives from the various churches and civic organizations, also asks whether the "waste of millions a year by the sanitary district" should not be a subject for investigation by Attorney Frank J. Loesch, former special prosecutor, but now first assistant state's attorney, and his assistants, who so successfully carried on the prosecution of the Eller gang.

The appeal of the Wilmette committee contains the names of 17 prominent residents of the suburb. Among them are Ralph H. Rice, civil engineer; Frederic R. Crossley, secretary of the Northwestern university law school; William Taylor, dry goods merchant; Irene I. Strickler, secretary of the Wilmette Chamber of Commerce; Thomas S. S. Hardwick, manufacturer; Mrs. C. P. Evans, a club woman; Mrs. I. E. Colvin, president of the Parent-Teacher association; Mrs. Allen Rossmann, president of the Wilmette Woman's club, and Attorney Hoyt King, Frederick J. Newey and Harry C. Kinne.

Make Liquor Out of Insect Killer; Nine Are Indicted

New York, Dec. 27.—[Special.]—Nine men alleged to have used "an insecticide" as a base for the manufacture of alcoholic beverages, were indicted today by the federal grand jury for conspiracy to violate the prohibition act. A second indictment was returned against five of these men for defrauding the government of taxes through violation of the distilling statutes.

John Hertz, head of the Yellow Cab company, has purchased an amphibian cabin plane for personal use, it was learned yesterday. The new ship is a Sikorsky multi-motored plane equipped to carry nine passengers. Robert Gast, who will pilot the ship for Mr. Hertz, within a few days will fly it from Garden City, N. Y., to Florida, where Mr. Hertz and family will use it in pleasure flights.

CHRISTMAS AIR MAIL 4 TIMES AS HEAVY AS IN 1926

During the ten days before Christmas the transcontinental air mail flying through Chicago from New York and San Francisco carried four times the mail carried during the corresponding period in 1926, according to figures of the postoffice department. A total of 23,000 pounds were carried yesterday and 25,000 pounds yesterday during the recent holiday rush. The figures for 1926 showed 5,000 pounds carried each way. During the same ten day period last year 11,000 pounds were flown westward and 10,000 eastward.

John Hertz, head of the Yellow Cab company, has purchased an amphibian cabin plane for personal use, it was learned yesterday. The new ship is a Sikorsky multi-motored plane equipped to carry nine passengers. Robert Gast, who will pilot the ship for Mr. Hertz, within a few days will fly it from Garden City, N. Y., to Florida, where Mr. Hertz and family will use it in pleasure flights.

AFGHANS DRIVE REBELS 18 MILES FROM CAPITAL

MOSCOW, Dec. 27.—(AP)—Advances reaching here from Kabul, capital of Afghanistan, are that government troops have occupied Paghman and have driven the rebels eighteen miles from the capital toward the Charikar road. Rebels destroyed the military hospital on Mirpala Height and a number of villages around Kabul.

Plan to Evacuate Kabul.

LONDON, Dec. 27.—(AP)—Dispatches to the Daily Mail from Lahore say Kabul, capital of Afghanistan, will be completely evacuated as soon as possible. Many persons still are awaiting rescue and stores there fast are becoming depleted. It is snowing there and no airplanes were able to leave today.

When a troop carrying plane landed from Bagdad yesterday a German woman got in its way and was killed. The propeller broke, thus laying out a second airplane damaged and unfit for use at the British legation.

SEVEN KILLED ON CROSS 3 NEAR

Gateman Is Hit Fatal to

(Picture on p. 1)

A gateman failed to see a crossing car in Oak Street yesterday morning and was killed. A seventh was injured.

There was no flag woman pedestrian crossing and a view to a grade Center and a man and a woman were fatally injured.

Thus a total of seven deaths was the toll of accidents yesterday. In the Oak Street crossing was held \$10,000 for the next year on Jan. 2. The recommended appointment of the Hubbard.

Train Hits Auto

A fine mist was in the air yesterday when a messenger express to St. Paul approached avenue crossing in the city. The gateman, perched in a light post, had just lowered the tracks of the Garfield of the Metropolitan parallels the Soo line to the north.

An automobile on Park avenue north skidded on the pavement into a light post. The car was stopped to the west. The gateman was at the scene.

From the south approach a mobile containing three children, returning Christmas tree celebration automobiles which had been damaged. They shot over the top of the automobile from started to cross and that the gateman no train a few feet away.

Gateman Says

According to his story, he reached the controls, bumped his head and fainted. When he recovered, containing seven people hurled 125 feet down the street.

The dead were: Howard Olsen, 11 years old, son of the party was still alive last night in the hospital. Joseph Boharty, a crossingman, was not all right at the inquest. He was taken back to the next hearing of the inquest.

Crash in Niles

The Niles Center in the afternoon, Mrs. Emma Loeb, 11 years old, were down for a Christmas tree celebration automobiles which had been damaged. They shot over the top of the automobile from started to cross and that the gateman no train a few feet away.

Woman Killed

Mrs. Emma Loeb, 11 years old, were down for a Christmas tree celebration automobiles which had been damaged. They shot over the top of the automobile from started to cross and that the gateman no train a few feet away.

Autos Claim Three

In addition to the Olsen families three other families were killed yesterday as a result of the accident. The toll was increased to 10.

The Victims:

Carl Anderson, 23, 11111 avenue, injured on Wednesday night streets between his car struck by a train. Mrs. Mary Vandana, 2417 Fullerton avenue, was killed. An unidentified, about 70 years old, automobile at Jackson and streets. His car was struck by a train. J. G. Wright, 1448 died of a skull fracture automobile wreck on Michigan City, Ind.

SEVEN KILLED ON CROSSINGS; 3 NEAR DEATH

**Gateman Is Held in Crash
Fatal to Six.**

(Pictures on back page.)

A gateman failed to lower railroad crossing gates in Oak Park early yesterday morning and six persons were killed. A seventh was near death last night.

There was no flagman to warn a woman pedestrian at a Hubbard street crossing and she was killed. A billboard and a station obstructed the view to a grade crossing in Niles center and a man and wife lay probably fatally injured in an Evanston hospital.

There was a total of seven dead and three near death as the toll of grade crossing accidents yesterday in Cook county. In the Oak Park accident, the gateman was held under bonds of \$10,000 for the next hearing of an inquest on Jan. 2. The deputy coroner recommended appointment of a flagman at the Hubbard Woods crossing.

Train Hits Auto in Oak Park.
A fine mist was falling at 137 A. M. yesterday, when the East 500 line passenger express to Minneapolis and St. Paul approached the Oak Park crossing in Oak Park. The gateman, perched in his high tower, just lowered the gates guarding the tracks of the Garfield park branch of the Metropolitan railroad which parallels the Soo line right of way on the north.

An automobile turning into Oak Park avenue north of the railroad crossed the pavement and crashed into a light post. Two other automobiles stopped to inspect the damage. The gateman peered interestedly at the scene.

From the south approached an automobile containing four adults and three children, returning from a Christmas tree celebration. The two automobiles which had stopped to inspect the damaged car started up. They shot over the Soo line crossing in the glare of the approaching train. The automobile from the south started to cross and it was only then that the gateman noticed the roaring train a few feet away.

Gateman Says He Fainted.

According to his story told yesterday, he reached excitedly for the switch, bumped his head upon one of the rails and fainted for a moment. When he recovered, the automobile containing seven persons had been jerked 155 feet down the track and its occupants were a jumble of dead and dying. The dead were: Henry Olson, 2832 Wisconsin avenue, Berwyn; Mrs. Mildred Olson, his wife; Halvor Olson, 100 North Nottingham avenue, his son; Mrs. Olga Olson, Halvor's wife; Harold Olson, 9 years old, and Virginia Olson, 11 years old, children of Halvor. Howard Olson, 5, was the only member of the party not killed. He is still alive last night in the Oak Park hospital.

Joseph Bohatry, gateman at the crossing, was not allowed to tell his story at the inquest yesterday. He was taken to George R. Trues, attending the Rapid Transit company, which employs him, and then taken back to jail to await the next hearing of the inquest.

Crash in Niles Center.

The Niles Center accident occurred in the afternoon. Mr. and Mrs. Herman Rose and their son, Raymond, 11 years old, were driving in Kostner avenue, which has been newly paved, and has become a route for much traffic, when they came to the Chicago, North Shore and Milwaukee interurban tracks.

There are no gates or flagman at the crossing and the view is cut off by a huge billboard and a railroad station. The front of the automobile was struck by a fast electric train. Both Mr. and Mrs. Rose were probably fatally injured. Their son escaped with a few scratches.

Woman Killed by Train.

Mrs. Emma Loeb, 61 years old, 5755 Kenwood avenue, was the other grade crossing victim. Gates at the Gare street crossing in Hubbard Woods were down for a Chicago and North Western train to pass. After the train had gone Mrs. Loeb tired of waiting for the gates to rise.

She crawled under the gates and started across the tracks when she was struck by a second train and killed. Deputy Coroner Charles Kennedy, who held an inquest, recommended that a flagman be stationed at the crossing to prevent just such accidents.

Mrs. Loeb was the wife of Julius Loeb of the Parrell Bros. hardware store, 156 West Jackson boulevard. She was spending the holidays with her daughter, Mrs. Walter Bachman, 1283 Asbury avenue, Hubbard Woods.

Auto Claim Three Other Lives.

In addition to the members of the Olson families three other persons died yesterday as a result of automobile accidents. The Cook county motor toll was increased to 1.085 since Jan. 1. The victims:

Carl Anderson, 32 years old, 6222 11th avenue. Injured in a collision on Wednesday night at 33d and State streets between his automobile and a truck driven by Harold Rasmussen, 1041 East 51st street.

Mrs. Mary Vandamm, 62 years old, 101 Fullerton avenue. Hurt on Wednesday night in a collision at Fullerton street and Oakley avenue.

An unidentified, well dressed man about 50 years old was killed by an automobile at Jackson boulevard and LaSalle streets. His body is at the county hospital.

J. G. Wright, 1648 Sherwin avenue. Died of a skull fracture suffered in an automobile wreck on Wednesday near Michigan City, Ind.

AUTHOR PRISONER IN OHIO PENITENTIARY ELIGIBLE FOR PAROLE

Columbus, O., Dec. 27.—(AP)—John L. Murphy, author prisoner in the Ohio state penitentiary, was made eligible for parole today when his sentence was commuted by Gov. Donahay. Murphy, sentenced from Marion county, was serving a term of from 10 to 15 years for burglary. He was admitted to the institution in September, 1923.

Since his incarceration, Murphy has written many war stories that have established a reputation for him as a fiction writer. It is said that his income from his stories amounted to \$7,000 last year. A New York magazine editor among those who recommended that Murphy's sentence be commuted.

Archduke Sues to Recover Billion Dollars of Property

BUDAPEST, Dec. 27.—(AP)—A suit for recovery of property valued at one billion dollars has been instituted before the permanent court of international justice at The Hague, it became known today. The suit is that of Archduke Albrecht, pretender to the Hungarian throne, and is brought on behalf of his father, the Archduke Frederick, field marshal of the Austrian army during the war, for recovery of royal palaces, castles, villas, estates, paintings, jewelry, furniture, gold and silver objects belonging to Frederick in Italy, Yugoslavia, Czechoslovakia and Roumania and sequestered by those states under the peace treaties.

Woman, Man, Boy Taken in Beer Raid in Evanston

Raiding a beer flat at 1518 Crain street, Evanston, last night, the police seized a gallon of liquor, 180 bottles of beer, a still and 200 gallons of mash. They arrested Mrs. Anna Haught, 48 years old, and her helpers, William Prim, 48 years old, 1512 Greenwood street, Evanston, and Joseph Stwek, 15 years old, 1718 Crain street, Evanston.

LIFER IS GIVEN 5 DAYS OFF TO CLEAR HIMSELF

La Crosse, Wis., Dec. 27.—(AP)—Authorities here are awaiting the arrival of John G. Beier, 29, "lifer" at Wau-pun, Wis., state prison, who hopes to prove his innocence of the slaying of Nick Biesen by interviewing the widow of the slain man.

Beier has been granted a five day release from prison by Gov. Fred R. Zimmerman, in which to interview Mrs. Helen Biesen Bartovick, who is being held in jail here without charge. He says he hopes to induce the woman to "tell the truth" and to prove his innocence of the crime for which he has served eight years.

Biesen was found with his head blown off on Aug. 26, 1920. Mrs. Biesen "confessed" that Beier was the slayer. She was later sentenced to two years on a statutory charge for her relations with Beier.

Beier says he was kidnapped by Mrs. Biesen and held prisoner in a closet in the Biesen home while the woman killed her husband.

JOHN D. JR. BUYS HUNK OF GOTHAM AT 100 MILLION?

New York, Dec. 27.—(Special).—It was reported today on reliable authority that John D. Rockefeller Jr. had purchased nearly three blocks between 48th and 51st streets and 6th and 7th avenues, held by Columbia university, at a price of more than one hundred million dollars.

Reports were that Mr. Rockefeller planned to develop the property into a group of monumental buildings, of which the new Metropolitan Opera house would be the central structure. The Metropolitan plans call for a spacious plaza with underground parking space for 1,000 cars.

Last August, when it was first reported that Mr. Rockefeller had taken an option on the properties, the option figure was estimated at between \$40,000,000 and \$80,000,000. An announcement is expected soon from President Butler of Columbia.

GILBERT ON WAY HOME TO SEE CAL ON REPARATIONS

PARIS, Dec. 27.—(U.P.)—S. Parker Gilbert, agent general for reparations, embarked on the Berengaria at Southampton, England, today. He is en route to Washington to confer with President Coolidge, President Elect Hoover, and Secretary of Treasury Mellon on "American participation in the commission of experts to fix the total of German reparations."

The reparations agent general's aids here said he would spend several weeks in the United States "on a regular vacation."

Mr. Gilbert's fourth annual Dawes plan application report is at the printer's and soon will be published.

SAYS MORROW WON'T SERVE.

Washington, D. C., Dec. 27.—(AP)—The American government is not disposed to spare Dwight W. Morrow from his services as ambassador to Mexico so that he might serve on the special committee to deal with the reparations problem.

Owen D. Young, who assisted in the preparation of the Dawes plan, appears a likely choice, Mr. Kellogg said.

WARNS DEATHS FROM FLU IN U. S. MAY BE 15,000

**Surgeon General Hears
of 1,250,000 New Cases**

Washington, D. C., Dec. 27.—(AP)—Surgeon General Hugh S. Cumming said today that he viewed the influenza situation as "serious," and believed there was "every indication" that the outbreak would spread through the Atlantic states. He added that deaths this year might exceed 15,000.

Deaths in the 1918 epidemic, however, were 500,000 in excess of the normal number from the disease. In 1926 there were 100,000 excess deaths and in 1926 there were between 15,000 and 20,000.

Calls Disease Mild.

The surgeon general also declared there was the possibility of a second and more severe wave of the epidemic later in the winter. He reassured the public against alarm, however, emphasizing the mildness of type of the disease now prevalent, and the apparent absence of complications.

"There is every indication, as I see it," Dr. Cumming said, "that the epidemic will spread through the Atlantic states as it has through the west."

The surgeon general substantiated public health officers' estimate of a million and a quarter new cases in the United States during the week ended Dec. 22. Noting reports of 58 cities to the census bureau, showing 710 deaths, compared with 475 in 52 cities for the previous week, he said the mortality rate was meeting expectations of large advances in deaths as the number of cases increases.

Finds Death Rate Low.

"The death rate now is low in proportion to the number of cases," he added, "and consequently I see no reason for public alarm. However, any epidemic so widespread as this one is serious. There is every justification to think that this year's mortality will be greater than that of 1926."

FLU RETURNS TO CHICAGO.

Christmas celebrations were blamed by Dr. A. H. Kegel, Chicago health commissioner, for a sudden revival of the waning epidemic of influenza and pneumonia in the last two days. He issued new warnings for the public to be on guard against colds.

There were 351 reported cases of pneumonia and flu reported on Wednesday and 53 deaths, the highest number for two weeks. Yesterday from midnight to 4 p. m. 28 new cases and 19 deaths were reported.

ELDER ROCKEFELLER GIVES A SANTA PARTY AND LEADS THE HYMNS

Ormond Beach, Fla., Dec. 27.—(AP)—Around a Yuletide tree, brought from the northern woods, John D. Rockefeller Sr. gathered some thirty friends and neighbors tonight to hold his annual Christmas party at The Casements, his winter home here.

Passerby on the street heard the Christmas carols in which the aged magnate joined with his friends.

The company was received in the brilliantly lighted living room where a decorated tree lifted its lighted branches to the ceiling. Mr. Rockefeller, dressed in a dark blue suit, sat near the tree, about which were piled presents for all.

From a balcony above the living room, half hidden by flowers, a quartet sang "Holy Night" and "O, Little Town of Bethlehem" and others of Mr. Rockefeller's favorites. Finally hymn books were passed around and everybody joined in the songs. The magnate kept time by drumming with his fingers on the arm of his chair.

Then came Santa Claus, a huge sack of toys on his shoulder, passing the trinkets to both young and old. Afterwards Mr. Rockefeller gave out the more expensive gifts that were sent about the tree.

Three watchmen guarded approaches to the home while a footman stood by the door. They had orders not to allow newspapermen or photographers on the place.

KIN OF CAPONE AND PAL TAKEN FOR GUN TOTING

Charles Fischetti, 28 years old, 2132 South Wabash avenue, a cousin and bodyguard of Alphonse Capone, the gang leader, was arrested with two companions at Madison and Clark streets yesterday. Fischetti and Michael Sprandi, 23 years old, 415 South Wells street, were carrying revolvers.

The third man, Charles Russon, 25 years old, 1159 South Michigan avenue, was unarmed.

Charges of carrying concealed weapons were placed against the first two after Attorney Tyrrell Richardson had announced his intention to ask for a writ of habeas corpus. Russon was booked for disorderly conduct. All furnished bonds and were released.

Capone, it is reported, left last week to drive to his winter home in Miami, Fla. On former trips, Fischetti was one of his retinue.

Clarence Buck Resting Well After Operation

Clarence Buck, former state senator and manager of Frank O. Lowden's campaign for the Republican presidential nomination last June, was reported resting comfortably early this morning following an operation yesterday at Wesley Memorial hospital. The operation was to relieve a bladder ailment.

FAMILY TREE IS SHAKY, SOCIAL SCIENCE WARNS

Only One Tie That Binds Now, Convention Told.

BY ORVILLE DWYER.

"The family tree" was given a gashawful pruning and trimming yesterday at the 22d annual convention of members of the American sociological society in the Congress hall. The social workers and college professors and doctors of this city shook the poor old thing as ancient limbs rattled like the bones of the skeleton in the closet. When they had finished it appeared something must be done or the tree will disintegrate and blow away on the winds of a little more

course, the speakers didn't say anything about the tree. They simply referred to it as "the family." They took their kid gloves off and here knuckle lacing which, they pointed out, may or may not help family matters.

Dr. C. Sociologist a Speaker. One of the principals in the speaking was Dr. W. F. Ogburn of the University of Chicago, a leading sociologist. Another was Dr. E. R. Ross of Northwestern university, a third, Miss Florence Brown of the University of Kansas. The subject was discussed also by Dr. Dardoff, Dorothy Kahn, Miss Price, and Leah Feder, all known in sociological work. Ogburn pointed out that the family from the most primitive times always been bound together by ties. These he named in the order of their importance as affection, religion, protection, recreation, education, and family status.

Only One Tie Left, He Says. "There remains of these original ties now only the tie of affection which really binds," he said. "The other six, while not entirely gone, are fast fading and it is only that first one which holds most families together."

Take a lot of steel filings and toss them on a table. They will not get together in two. Well, men and women, human beings, do, and there have been these seven reasons for it. "Those same seven ties held the primitive, prehistoric family together. In the middle ages those ties became weaker and the graphic line went down. It remained up for a time and then slumped and we are now far below where we were in primitive times."

Figures Support His Claims. Dr. Ogburn gave statistics which he said he had gathered for a number of years and recently coordinated, and which bore out his conclusions comparing the modern American family, among them were such as these: Of marriages contracted in 1928, one in five will probably end in the divorce courts.

The number of waiters increased three times as fast as the population, and the number of restaurant keepers four times as fast as the number of families, from 1900 to 1920.

The number of delicatessen stores increased three times as fast as the population in ten years.

One out of every eleven married women is working outside the home.

New Flats Outnumber Houses.

Two-thirds of the new homes provided for families are apartment houses.

About one in ten go through life without ever marrying.

One in every six is widowed, divorced or single.

Of all the homes of married women in a typical American city, one in five is broken by divorce, separation, or death.

In a typical city, one in every seven women is divorced or separated from her husband.

Miss Sherborn told of a "fitter family" program that has been carried on for the last nine years by the University of Kansas at the Kansas state fair. The families, she said, are examined individually and as a whole, and those with the highest standards are given medals. There will be further sessions of the convention today and tomorrow.

Loved Only One Day

JEAN ARTHUR.

Los Angeles, Cal., Dec. 27.—(AP)—Jean Arthur, screen actress, had to choose between a husband and a career, and so she left Julian Ancker wifeless after a honeymoon of but a day, Ancker related in Superior court here today. His petition for annulment of his marriage to the actress was granted. They were married in Ventura, Cal., some months ago, he said. After the ceremony Miss Arthur took another look at her movie contract and saw it prohibited her marriage. So the honeymoon was over, Ancker added.

DOTING MOTHER SPOILS HUSBAND, WIFE CHARGES

Antoinette Nieman, 1430 North Arcturian avenue, filed a cross bill for divorce in the Circuit court yesterday charging that her husband, Joseph, a railroad employe, never ceased to be his mother's pampered darling, even after twelve years of marriage.

The pleading, drawn by Attorney Harry X. Cole, alleges that Nieman was ruined as a husband by the cooing of a doting mother. Technically, the grounds for divorce set up in the cross bill are cruelty and desertion. It is on a charge of desertion that Nieman is seeking a decree in the original bill, filed some time ago.

Live Near Parents.

Mrs. Nieman avers that her spouse insisted on their living in the same apartment building as his parents, in whose eyes, it is charged, he was always the baby of the family. He constantly found fault with her cooking, housekeeping, and manner of dress, according to the cross bill, and would run downstairs to his mother's apartment for corroboration of his criticisms.

On a number of occasions Nieman took a trifling dislike to a meal prepared by his wife and, it is alleged, left her to eat with their three children while he ate with his parents.

Falls to Win Him Away. The pleading sets up that Mrs. Nieman frequently during the twelve years tried, but without success, to take her husband from his mother's apron strings.

Their quarrels ended a number of times in Nieman striking his wife, she states. On May 1, 1921, he packed his personal belongings and moved to his parents' apartment, she charges.

U. S. LAXITY LETS ALIEN GUNMEN IN TO KILL FOR HIRE

Flit Easily Through Law's
Loopholes.

BY ARTHUR SEARS HENNING.

(Chicago Tribune Press Service.)
Washington, D. C., Dec. 27.—[Special.]—The department of labor, it was learned today, has discovered how alien gunmen are being slipped in and out of the United States to do man killing jobs for the American Mafia and other gangs operating in Chicago and other large cities.

They are being brought in as seamen in the crews of merchantmen plying between Europe and the United States. On arriving in this country, they desert their ships and are utilized under the La Follette seaman's act to remain here sixty days in search of berths on other ships.

The sixty day period gives the imported gunman plenty of time to pull off the killing contracted for and make good his escape from the country as a seaman aboard a departing merchantman before the police or the federal authorities catch up with him.

Thousands Stay in U. S.
Many aliens who come in as seamen remain here permanently, though illegally. There is no means of checking up on seamen taking shore leave and thus enforcing the sixty day limitation. The department estimates that there are about 25,000 aliens who gained admission in this manner and are still here in defiance of the law. With the exception of seamen, aliens who entered the country illegally since the enactment of the 1924 immigration law may be deported whenever apprehended.

Under a court ruling a seaman illegally here may be deported only if apprehended within three years of his entry.

Another means of getting aliens in illegally is furnished by the use of fraudulent American passports. A citizen of alien extraction interested in getting in a relative or friend who could not pass the consular test abroad or who is unwilling to await his turn on the quota list, procures an American passport and sends it to the prospective immigrant.

Descriptions Are Altered.

Cunning forgers change the description on the passport to fit the immigrant, who then enters the United States as an American citizen. This is said to be a favorite subterfuge of aliens who speak a little English. Inasmuch as we naturalize aliens with only a smattering of English, they are able to get by the immigration inspectors without arousing suspicion.

The department accidentally stumbled onto this scheme and upon investigation found that an agency in New York does a regular business in procuring American passports for forgers abroad. The agency buys the passports from American citizens, and the passports when forged command as high a price as \$400 each.

The bootlegging of aliens into the United States continues to be a lucrative occupation along our borders. The recent doubling of the border patrol, now consisting of 747 men, has resulted in a fifty per cent increase in the number of smuggled aliens apprehended, the total last year amounting to 18,000.

Smuggling Rates Go Up.

As a result of the increased difficulty in getting in, the bootleggers have put up their prices. The top price—\$2,000—is demanded, and obtained, of Chinese, whom it is unusually difficult to pass through without detection. For Chinese girls, delivered in Chicago and New York, the bootleggers get \$7,500 each, compared with \$5,000 before the border patrol was strengthened.

An unusually large number of Chinese are now being detected endeavoring to enter regularly, as the children of Chinese born in the United States. The children are, therefore, American citizens and can not be excluded. The fraud consists in the impersonation of the children by Chinese citizens. There are thousands of Chinese born in China who are American citizens. Their fathers were born in this country but were able to obtain Chinese wives only by returning to China and marrying. They could not bring their wives to America because of the exclusion law, so they have reared their families in China, to which they make periodical visits.

A Lucrative Opportunity.
One of these fathers picks up a nice bit of change whenever he is able to slip in a compatriot as one of his children. Attempts even have been made to get the grandchildren in as American citizens, but the department nipped this scheme with a court ruling that while the foreign born children of American citizens are Americans, the grandchildren are not if their parents never resided in this country.

How many aliens are in the country illegally nobody knows. The number has been estimated at all the way from 1,000,000 to 3,000,000. There are said to be thousands of them in Chicago alone. The department complains that it has only 1,000 inspectors altogether, and most of these are necessarily stationed at border points. There are only two in Chicago.

Department officials assert that with an adequate force of inspectors they could rid the country of the alien criminals who are terrorizing American communities. But the budget bureau has disallowed 75 per cent of the appropriations asked for this purpose.

When the labor department appropriation bill was before the house last week, Representative Bertrand H. Snell (Rep., N. Y.) procured a \$50,000 increase for additional inspectors on the Canadian border. No Chicago member suggested the necessity of more inspectors to deal with the alien menace in Chicago.

Both the administration and congress have been remiss in strengthening the immigration, deportation and naturalization laws, largely, some surmise, because of the political influence of the foreign born element.

The laxity of the law is graphically illustrated by the fact that a large number of the aliens deported are repeaters. They slip in again and again, knowing that the worst that can happen to them is to be given free passage home at the expense of Uncle Sam.

Secretary of Labor James J. Davis holds that the only effective means of coping with the problem of aliens illegally entering and remaining in this country is offered by his plan of enrollment of aliens.

Only Practical Plan.
"It is impossible," he said today, "to prevent the smuggling of aliens into the United States from Cuba and across our land borders without maintaining a veritable patrol army. The requirement of enrollment each year would prevent much of this smuggling and bring to light the residence of those who have succeeded in evading inspection under present laws."

"No alien or any other person is entitled to the benefits of residence whose personality and activities are such that he is unwilling to be identified or divulge the place of his residence."

COURT RULING PERILS WORK OF SANITARY BOARD

District "Broke," Hunts
for New Funds.

The sanitary district is "broke" and its program of construction for public sanitation is in danger of being halted as the result of a court ruling yesterday making it impossible to disburse the \$27,000,000 bond issue voted on Nov. 22.

Trustees of the district met yesterday afternoon to review the financial condition and found that there is a questionable \$9,000,000 in the treasury with which to pay off an indebtedness of \$15,000,000. They were frankly puzzled as to where to look for relief and adjourned until this afternoon, when they will endeavor to grope their way out of the dilemma.

Must Reply in 30 Days.

The decision was made by Judge Joseph Fitch, who overruled a motion for a demurrer by Macley Hoyne, attorney for the district, to halt the suit brought by a secret petitioner to restrain the issuance of the bonds. The judge gave the drainage board 30 days in which to appeal or reply.

In a conference with Austin L. Wyman, the attorney who brought the suits, President Howard W. Elmore yesterday endeavored without success to persuade him to withdraw the suit in the interests of public health. Wyman had previously admitted that his client has a personal interest in the outcome of the case. In his decision yesterday Judge Fitch dismissed as defendants Mr. Elmore, Trustee Ross A.

Woodhull and Mrs. George Hull Porter, as they were not parties to the passing of the bond ordinance.

Report on Finances.

Lawrence F. King, chairman of the finance committee, presented the following report of the district's finances at yesterday's meeting:

Bank balance.....\$3,100,000
Tax money due from county.....3,000,000
Judgments against city.....5,350,000
Total.....\$11,450,000

Outstanding contractual obligations.....\$13,000,000
Due in fixed charges for interest and retirement of bonds until April 1.....2,000,000
Total.....\$15,000,000

Although no definite steps were taken by the trustees, two solutions to the problem were suggested. One called for an appeal to the state legislature to set forward the date on which the new law requiring the submission on all bond issues to referendum vote becomes effective. The other called for a special election on the bond issue.

cial election. "The cost of such an election would run around \$400,000 and would mean an additional expense to the taxpayers whether the issue carried or not," he said.

"We may be broke," the president added, "but if we are we will run on a broken bank. What plan we will follow I do not know, but we shall certainly find some way out."

Unless the contractors can be persuaded to continue the construction work which is demanded by the war department under the permit for the diversion of water from the lake, all the important projects provided for in the bond issue must be halted. It was generally agreed by the trustees. It was pointed out that while the district could not order them to continue without pay, they would be liable to judgment from the district should they continue the work.

U. S. May Void Permit.

The possibility that the government may revoke the permit, which expires on Dec. 31, 1929, because of failure to complete the program outlined by the war department, was pointed out.

only \$1,100,000 will remain after the fixed charges are paid from the remainder must be paid all the pay rolls and current bills. Pay rolls until April first may reach \$1,500,000, Trustee King stated.

May Sue City for Funds.

The \$3,350,000 due in judgment from the city for light and power supplied by the sanitary district might be obtained through mandamus proceeding in case the city council fails to provide for its payment in the 1929 budget. Trustee Ross A. Woodhull pointed out. All thought of continuing with the extension of sewers and other sanitary projects was abandoned by the board. "This court decision means that all development is stopped absolutely," Mr. Woodhull declared.

Over the objections of Mr. King and August W. Miller, Thompson members of the board, the trustees passed an amendment to the rules governing the duties of the chief engineer. The amendment made it possible for the engineer to devote some time to other municipalities, provided such duties are without compensation and are not in conflict with the duties of his office.

PROTEST AGAINST WEST SIDE BAN ON AUTO PARKING

Rule Prevents Shopping, Business Men Object.

BY PUTNEY HAIGHT.

The west park commission is experiencing resistance to its efforts to prohibit the parking of automobiles on through boulevards of its system. It was learned yesterday. The ordinance under which the thoroughfares are kept clear of standing vehicles has been operative only a fortnight, but in that time an avalanche of protest, complaint and objection has developed, according to Dr. John Dill Robertson, president of the commission.

Yesterday a formal petition was received by the commission from the West Side Lions club. It set forth that in the opinion of business men whose property fronts on the boulevards, the restriction is doing material damage to property values and to their business enterprises.

Say Oak Park Benefits. "Such a restriction is detrimental to the community," the petition said, "as it prevents transaction of business and shopping, unable to park their cars, are going elsewhere. With the development of the new business center in Oak Park, apartment parking on the boulevards will drive much trade to that section, at the cost of west side centers. Automobile dealers are discouraged from car ownership when no place to park is provided. We earnestly urge that you modify the ordinance so that it will permit hour parking for shopping purposes."

Quite as a coincidence, there also came to the commission yesterday a communication from the village trustees of Oak Park, informing Dr. Robertson that Oak Park had decided to prohibit parking at all times on Washington and Jackson boulevards in that village, having noted the benefits derived from non-parking on those boulevards within Chicago. The trustees asked the west park to furnish painted signs, as the village is without funds for the purpose.

Dr. Robertson reported that a group of seventy business men had appeared to protest against the parking ban last week and the representatives of nearly all the churches on the boulevards registered objection to the ordinance. After a survey of the situation, these groups withdrew objections.

Adopt Liberal Policy. "Our object is to provide facilities for moving traffic, but we do not want to injure business by arbitrary regulations," Dr. Robertson said. "The improved boulevards cost millions and the purpose of the improvement was to relieve traffic congestion."

"However, we want to give local business every encouragement possible. In accordance with that policy, our police department has been instructed to act liberally with motorists who give evidence of desiring to 'stop and shop.' No shopper is disturbed under fifteen minutes, and when circumstances compel a longer stop, our policemen are under orders to take that into consideration."

Urges Elevated Highway. The commission yesterday passed an order permitting motor dealers on the west side "now" to have parking rights on certain outer service drives in the boulevard system, providing they pave the drives with concrete.

Dr. Robertson informed protesting groups that the proposed elevated highway would serve to relieve traffic to such an extent that later on modification of the parking rule might be made. He also said that three train loads of west side boosters will invade Springfield on Jan. 14 in the interest of elevated highway legislation.

LOTTIE PICKFORD IS MENTIONED IN BOOTLEG CASE

Hollywood, Cal., Dec. 27.—[Special.]—The name of Lottie Pickford, which entered Hollywood police records on Christmas day as hostess at a wild party which broke up in a brawl between Lottie's rival admirers, Jack Dougherty and Daniel Jaeger, today entered the court records in another case, that of John Patrick, who is awaiting trial for transporting liquor.

Patrick, who was arrested Dec. 22, was arraigned before Municipal Judge Reed today, charged with transporting gin. He stated that the auto he was driving was owned by Lottie Pickford. Patrick pleaded not guilty. The automobile is said to be registered as property of the Mary Pickford company.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

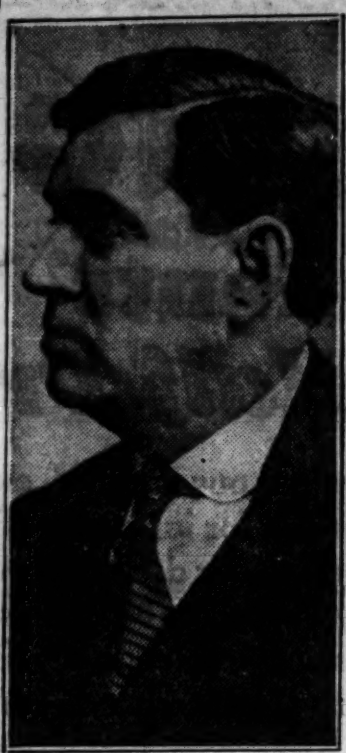

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the source of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (Adv.)

CREOMULSION

RALLIES

CYRUS E. DIETZ.

Moline, Ill., Dec. 27.—[Special.]—Cyrus E. Dietz of Moline, justice of the Illinois Supreme court, underwent an operation for the removal of an inward growth at a Moline hospital this morning. Attending surgeons said his condition was favorable.

FAST CHICAGO TRAINS WOULD AVOID BUFFALO

New York, Dec. 27.—[Special.]—A plan for routing limited trains between New York, Detroit, and Chicago through Niagara Falls instead of Buffalo has been submitted to the New York Central railroad by the city council of Niagara Falls. The plan is being considered by railroad officials here, it was learned today.

While details have not been made public, it was pointed out that much time would be saved by trains like the Century, the Wolverine, the Detroit, and others, if they were sent over a direct route between Rochester and Niagara Falls, thence to Detroit and over the Michigan Central tracks to Chicago.

This arrangement would eliminate the necessity of slowing up through the great freight and terminal yards in Buffalo.

GERMAN POLICE IDENTIFY MAN IN LEVIATHAN THEFT

BERLIN, Dec. 27.—[Special.]—Berlin police today established the identity of "Charles Larsen," who passed to Friedrich Ryber of Vienna ten \$1,000 bonds of the Tokio Electric Light company which were stolen in August from registered mail on the steamship Leviathan. The police said that

"Larsen" was really Franz Rudi, alias Walter Ryber, of Hamburg, and that he was widely known in police circles. Officers of the Leviathan identified the man as Charles Long, who shipped as a carpenter on the liner.

"Larsen" had disappeared. He was arrested at Antwerp and the Austrian authorities were notified that if they wished to extradite him the request must be made within 24 hours. Vienna was slow in acting and the Belgian authorities were obliged to free the man.

To Women Who Seek the Finest

In FURS

January Clearance Prices Are Now in Effect

YOU can now completely satisfy that urge to possess the most beautiful of genuine furs, yet save from 20% to 50%. Any Miller coat you may select embodies the most painstaking workmanship, the finest of pelts, and that indefinable air of style distinction.

TWENTY years of confidence guarantees satisfaction. Utmost value is assured because GOOD furs cannot be sold by anyone anywhere at lower prices than Miller's and still remain GOOD furs.

If your finances at this time do not permit you to purchase now, let us remind you that our sensible Budget Plan is at your service. It is a simple, safe and helpful way of extending your credit over a period of time while wearing the coat. This is an added convenience, and the only difference between paying cash and buying on our Budget Plan is a small carrying charge made for this service.

FRENCH BUDGET ASKS BIGGER AND SPEEDIER NAVY

Lays Plans to Complete
New Fleet by 1943.

BY HENRY WALES.

(Chicago Tribune Press Service.)
PARIS, Dec. 27.—Concrete proof that the Anglo-French naval compromise is dead and a convincing indication that a reduction of sea armaments is remote lies in the text of the plan of Marine Georges Leygues' building program for France's navy, which the chamber of deputies took up this evening.

The huge tonnage of powerful cruisers and the large number of big cruising submarines provided for is more than the categories of these war craft which the United States dared to suggest at the ill fated Geneva conference.

They are more distasteful because France is a nearby neighbor, separated from England only by twenty miles of salt water, and has a direct route on the British Mediterranean sea lanes, while America is 3,000 miles across the ocean.

Asks \$115,736,000 for Ships.
Mr. Leygues asks a budget of two billion nine hundred and sixty million francs [\$115,736,000] for 1929, and the program provides for completion of the fleet by 1943.

An examination of the ministry of marine's project discloses that the French viewpoint on naval armaments coincides with that of the United States, as it did during the league of nations preparatory disarmament conference. M. Leygues' program provides for lump totals of tonnage in four categories—capital ships, cruisers and destroyers, submarines and aircraft carriers.

The project provides for the maintenance of capital ships to 175,000 tons and 80,000 tons of aircraft carriers provided by the Washington treaty. It provides for 200,000 tons of cruisers, destroyers, and torpedo boats and 95,000 tons of submarines.

These figures reveal France's lack of confidence in a naval limitation agreement being reached.

Protests African Sea Lanes.

France also accepts the Washington viewpoint on the average life of warships, instead of adopting the British admiralty's policy of stretching their age in order longer to perpetuate Great Britain's sea supremacy. M. Leygues adopts twenty years as the life of a capital ship, seventeen years for cruisers, fifteen years for destroyers, and twelve years for submarines. The project asserts that France's principal policy in regard to its fleet is ability to maintain communications with North Africa. France thus adopts the militarist's viewpoint that is 100,000,000 blacks in the colonies are potential cannon fodder against any European aggressor in the next war, despite the fact that the great proved conclusively that the Senegalese and other aborigines from the west continent are totally incapable of facing white troops and modern arms of warfare—artillery, machine guns, tanks, and air bombers.

Plans 10,000 Ton Ships.

"Our warships must insure communications, indispensable to our mobilization," the project says.

France possesses nine big cruisers rapidly approaching the obsolete age, totaling 197,000 tons, which must be replaced by modern type 10,000 ton cruisers.

"A light craft tonnage of 300,000 is indispensable and must be realized with the briefest delay because of the important role these units play and the necessity of dividing the fleet between the Atlantic and the Mediterranean," the marine minister's report continues. "Ninety-six thousand tons of submarines represents the irreducible minimum, corresponding to about forty submarines. But since submarines are only half the time in commission, the balance being up for repairs, that leaves only ten available for the Mediterranean and ten for the Atlantic."

The fact is that the French submarines thus average about 2,500 tons displacement apiece, meaning that they are all capable of long distance cruising operations instead of being merely coastal defense craft, as the British claim they should be.

In 1912, France's naval program provided for 80,000 tons of battleships, 200,000 tons of cruisers and destroyers and 94,000 tons of submarines, showing, except for capital ships, where the treaty limits their tonnage, that the new navy would be considerably larger.

New Jail to Be Ready Feb. 1, County Architect Says

County Architect Eric E. Hall, after a conference with contractors yesterday, announced that the new jail and Criminal Court building will be ready for occupancy on Feb. 1. Originally the \$1,500,000 improvement was to have been finished on Sept. 1. Then Jan. 1 was the date promised. The contracts were awarded on Jan. 4, 1927, and construction began on Feb. 15 of last year. Labor trouble caused some of the delay. Mr. Hall said there has also been delays due to shortage in the supply of marble and to his rejection of plumbing work.

REFRIGERATOR SALESMAN WANTED

Our Wholesale Department has developed to the point where we require an experienced sales force. One more producer, who has been successful in the selling of specialties, either wholesale or retail, is desirably acquainted with the procedure of selling appliances and refrigerators, and is desirably able to sell to earn \$5,000 a year or more. To such a man we offer permanent connection with guaranteed earnings and an opportunity to increase his income by his own initiative. For further information, apply to the Sales Department, J. H. H. Co., 410 North Michigan Ave., Chicago.

SAVANTS REVEAL RESEARCHES ON PROBLEMS OF U.S.

Hoover Plan to Banish Unemployment Praised.

BY ARTHUR EVANS.

Savants in ten learned societies put America's problems under the microscope yesterday in fifty meetings, held at the Stevens hotel during the day and night. Out of a bewildering mass of more than 200 papers and addresses the themes that stood out most prominently were:

Collapse of prohibition after nine years of attempted enforcement. President Hoover's plan for a three billion dollar labor reservoir on construction work to stabilize employment.

The gasoline engine as a possible cause of low farm prices. The stock market boom and the growth in the number of American millionaires.

See Promise in Hoover Plan.
The Hoover proposal of public work as a prosperity reserve was hailed by Dr. Frank G. Dickinson of the University of Illinois as one of the most promising of the decade. Addressing the American Association for Labor Legislation, he said:

"The twentieth century can make no greater contribution to progress than the conquest of these persistent fluctuations in employment. Let us hope the Hoover administration will demonstrate that a nation can be master of its own economic destiny and that these ever recurring periods of joblessness will be prevented."

Dr. Dickinson pointed out that in 1919, the value of contracts let by local, state and national officials was \$274,000,000, and by 1925 it was \$1,283,000,000, or almost double. He presented figures indicating that in the years 1919 to 1925, in which occurred the peak, the slump and the recovery, a shift of about three and a half billion dollars of public work would have stabilized all employment.

Four Billions Needed.
"Probably four billion dollars would be necessary for the period 1929 to 1935," he said, "because of the increase in population. We suggest Mr. Hoover find ways to increase his prosperity reserve to that amount. Every plan which stabilizes employment will also tend to stabilize sales, production and consumption; in fact, the whole business world will be benefited, with no increase in cost."

Prohibition came in for much attention as an outstanding problem. "Ten thousand gallons of alcohol, worth \$2,500 to the manufacturer, is worth \$600,000,000 to the bootlegger," Prof. Peter H. Odegard of Williams College told members of the American Political Science association. "Corruption, scandal, invasion of personal liberty, murder and wholesale breakdown of the spirit of law observance, were described in detail in a long documentation of cases and statistics presented to the political scientists by John G. Gebhart, director of the research department of the Association Against the Prohibition Amendment. He said Dr. J. M. Doran, U. S. prohibition commissioner, "is really confessing the complete breakdown of national prohibition."

Says Enforcement Lags.
"It is becoming increasingly clear each year," Mr. Gebhart said, "that the enforcement of the dry law is unable to keep pace with the rapidly increasing illicit liquor traffic."

"Government officials themselves now admit that we have reached the limit of what can be accomplished through federal enforcement," Dr. Doran said on Nov. 22. "If Congress wants to embark in the police business, it will take \$300,000,000 and a system of United States courts covering the land." The fact is that Congress did launch the government in the police business when it passed the Volstead act.

Dr. Doran's suggestion of a treaty with Canada to stop the flow of liquor from the Dominion, and tighter state enforcement was described by Mr. Gebhart as a subterfuge to get the states to stand the cost of enforcement.

"If the states are asked to cooperate in enforcement," he said, "they have a right to say what form of liquor control shall be left in their hands."

Blames Gasoline Engine.
The farmer is suffering from the effects of the gasoline engine in depressing the price of his products, according to Dr. Willard L. King of New York university.

In his argument, Dr. King points out that tractors, automobiles, and gasoline engines on the farm have saved so much time and labor that the cultivation of 20 million more acres has been made possible. At the same time the reduction in horses has cut off a demand for the products of 21 million acres for horse feed. Thus a total of 41 million acres is attributable to the gas engine.

Millionaires have increased from 7,000 in 1914 to between 30,000 and 40,000 in 1928, so Carl Snyder of the American Statistical association told the political scientists.

"Possibly half or more of these millionaires," he said, "have been created by the violent debasement in the value of the currency which has taken place since the beginning of the war."

war. A considerable part must be due, too, to the enormous rise in the value of securities.

"When fortunes can be made by gambling in pieces of paper, of what utility or attraction are the virtues of industry, sobriety, and thrift?"

Gives Cause of Stock Boom.
The stock market boom of 1928 has been grounded upon the new industrial revolution of the last two decades, Dr. David Friday, former president of Michigan State college, told the Statistical association.

"Before the war," he said, "this revolution brought a constant pressure for greater output, which was hastened by the war. A new industrial order resulted which was bound to produce a speculative boom of the first magnitude."

"This boom would have come earlier had it not been for the industrial depression of 1920-1921. In 1925 we have reached the highest level of corporate profits in history. Dividends paid by corporations, even after eliminating intercorporate dividends, approximate five and one-half billion dollars. We have improved the technique of production and management so rapidly that lower costs have forced prices down, while profits have been maintained."

New Plants Set Pace.
"We have learned that the ability of industry to reduce costs and so maintain profits in the face of falling prices depends upon the efficiency of new and improved plants."

"This new industrial revolution has been coming to fruition over the last two decades. We have effected tremendous improvements in our financial arrangements and in our industrial technique, both mechanical and psychological. We have universalized a new mode of transportation among our people. The housewife may find it difficult to get domestic service, but she has the power of thirty horses available under her toe."

"We have developed a new means of verbal communication, the radio; and a new process for producing the most seductive textile fiber—silk. It is the age of electrification and progress in the technique of producing energy. Plants which were the latest word in efficiency and low cost in 1918 already are obsolete. As a phase of this development there has appeared a new means of refrigeration. There has been a revolution in the machine technique of agriculture; and we are experimenting with a new technique of merchandising."

Girls Find City Hospitable When They Lose Their Jobs.
(Picture on back page.)
Chairs Rabino, 18 years old, of New York City and Josephine Tomask, 19 years old, of Burlington, Vt., left Chicago on an east bound train last night, turning the city the most hospitable in their experience. Two months ago they left the eastern seaboard with a magazine canvassing crew. In Minneapolis, when funds were low, they lost their jobs. Early yesterday, begging a ride to Gary, they were picked up by Mr. and Mrs. William Lockwood, 9111 South La Salle street, who took the hikers home, fed them, and then entrusted them to the matron of the South Chicago police district. The Rev. Philip Yarow provided their railroad fare home.

Marshall Field & Company
THE STORE FOR MEN
Time, NOW, to choose most carefully

—even after Christmas our immense range of merchandise offers wide and interesting selection. No crowding, either, as you purchase for year round value and satisfaction!

shirts—in a great selection. Fancy patterns, plain colors, with collars attached or collars to match, \$2.50 to \$15. First Floor.

pajamas—colorful fancy ones in a variety of fabrics. A large number of styles to choose from. They are priced. \$3.50 to \$35

shoes—for College Men and Young Men. The Varsity model is popular at school, \$15.50. Aristos in a wide style assortment.

hose—of silk and with clocks—a particularly wide selection at \$1.50 a pair. Lisle top and sole for service. In many colors.

gowns—luxuriously comfortable are the ones here of rayon and silk at \$40. Any number of other models priced up to \$135

sweaters—there is a tremendous assortment of golf sweaters with hose to match, in a price range from \$15 up. Finely made.

hats—our stock has never been more complete. Beavers, velours, plain finishes in soft hats, derbies—priced from \$5 to \$50

reels—rods and lines. Real fishermen will help you in our section. Rods, \$2 to \$65; Reels, \$1.15 to \$85; Lines, 15c to \$17.50

gloves—lined with fur, or of lightweight cape, or buckskin, or dress gloves. They're all here in a great variety. Priced \$3.50 up.

mufflers—and Handkerchiefs! Silk Squares are the popular type of Muffler this year, and you'll always use linen handkerchiefs.

ties—you're never quite as well satisfied as you are with the Ties of your own selection. Thousands to choose from, \$1 to \$6

golf bags—and golf accessories are always needed. There is a wide range of Bags in a variety of leathers, reasonably priced, too.

Our Tremendous Overcoat Clearance Is Still in Progress—On the Fourth Floor

Thousands of men in Chicago have taken advantage of our gigantic Overcoat selling. There are still many values to be had. Think of it—Overcoats priced from \$35 up to \$95!

FASHIONS AS SUNNY AS THE SOUTH LAND

Presented for Resort Wear in Mandel's Olympia Sports Shop

The Olympia Sports Shop, looking as if it had been transported to the Realm of Palms and Sand, presents its Fashions smart to wear South.

White—which looks well with a coat of tan—is of first importance, always contrasted with vivid, vivid colors.

Yellow, cool and capable, rises to prominence with the Sun-Colors—from yellow greens to fiery red shades.

Tri-Color and Bi-Color combinations—a striking effect gained with one contrasting color, or two, for trimming.

The sleeveless white silk crepe Tennis Dress—and the fashion of light weight woollens, particularly jersey.

Jacket Ensembles everywhere—with every type of costume. The new cardigans have interesting detail treatment.

These—with chiffon frocks for afternoon and evening, and light weight wraps, make interesting selection—in Sports Shop and in other Fourth Floor departments.

Feltless cleverly inserted in skirt of this sleeveless silk crepe Tennis Dress at \$16.75

Yellow shirt, white blouse, green trim—color styles in silk frocks at \$35.

Turbans—and Brims!

Silk crepe Turbans—made to order in any color you may wish—are the type Tappe originally made popular. They're \$10. Many felts in pastel shades from \$5 to \$17.50. And straws with small brims.

2000—20th Floor—State.

Sandals, Oxfords, Crepes!

Sandals, most important for morning, are new. The Oxford sketched in braided leather and kid is \$10.50. The pump, in a colorful modern design of crepe—called Rhapsody—is also priced \$10.50.

2000—20th Floor—State.

Wear the blouse tucked in or out—sketch is silk crepe in violet shade with yellow trimming, for \$40.

Another Jacket Ensemble, with unusual detail treatment. Brown jersey trimmed in yellow, for \$55.

Cyanide Fed Vi
Drink of Co

New York, Dec. 27.—The police were hard at work in an attempt to solve the mysterious murders that occurred in many a dark night watchman's room. The laboratory in the police building found dead this morning on the floor of a watchman's room, his head against a wall, a telephone book that had been thrown at him. In a small adjoining room on which Gaw had apparently been lying, the desk of a watchman, each of which was a former helper at the police station. In one were a number of potassium cyanide pills, which were not a trace.

Poisoned by Cyanide.
The murder of the watchman was a crime of the cyanide. His lips were white and his tongue was blue. The police assume the murderer in this case was a former helper at the police station. In one were a number of potassium cyanide pills, which were not a trace.

Robb Two Times.
The murder of the watchman was a crime of the cyanide. His lips were white and his tongue was blue. The police assume the murderer in this case was a former helper at the police station. In one were a number of potassium cyanide pills, which were not a trace.

Nothing was missing.

ORGIANESQUE MURDER KILLING IN NEW YORK

Man Made Fed Victim in a
Drink of Coffee.

New York, Dec. 27.—[Special.]—The police were hard at work tonight in an attempt to solve one of the most mysterious murders that have been committed in many a day.

Henry S. Gave, 29 year old helper and night watchman at the Gageon Bros. laboratory in 10th avenue, was found dead this morning, stretched upon the floor of one of the experimental rooms, his head lying upon a telephone book that had been torn apart by powerful hands.

In a small adjoining room was a table on which Gave and a companion apparently been having coffee. Upon the desk were two laboratory bottles, each of which contained some liquid. In one were strong traces of potassium. In the other was not a trace.

Inspection of the dead watchman showed that he had come to his death by cyanide. His lips were seared and his tongue was swollen. The police assume that Gave was poisoned in this weird and cold blooded fashion by the companion with whom he had been drinking coffee.

Police Commissioner Whelan announced late tonight that the police were looking for James Baker, 22 years old, a former helper at the laboratory, who voluntarily left there Nov. 2, two weeks before Gave was employed. A search of Baker's room revealed papers indicating that he had served as a navy submarine, as had Gave. It was evidence that the two were acquainted was obtained.

Robs Two Truckmen.
The murderer apparently topped off his orgianic crime with a petty robbery almost as inexplicable in motive and weird in execution.

About five o'clock this morning a Baltimore truck driver and his helper were up to the laboratory yard to deliver some supplies. They were accosted by a man who held them up at the point of a pistol, gagged and tied them, and robbed one of them of \$24. They recognized the robber as a man they had seen working in the laboratory about seven weeks ago.

The police advanced the theory that the driver had entered the building in search of some secret formula or for some other purpose.

But the laboratory officials scoffed at this. Nothing was in the building, they said, except the familiar implements and ingredients of research and experiment.

Kidnaping was missing except \$20 which had been taken from a drawer in a filing cabinet which had been left open by a coworker. In the drawer had not been touched, say the \$200 in platinum.

Yuth Accused as Robber.
Was While Jail Prisoner

Little Gross, 21 years old, 1414 7th boulevard, who was in the city jail awaiting trial on four charges of robbery, died there last night of diabetes. He was taken to the jail Dec. 14 and was to be arraigned Jan. 4. He lived with his mother.

Explosion Looms in FARM FIELD.
Damage estimated at \$20,000 was caused Monday by a fire that destroyed a dwelling and three barns on the farm of Henry Baker, Lee street and Mannheim road, in Palms.

Mussolini Bans New Year's Day Fetes So All Can Work

BY DAVID DARRAH.
(Chicago Tribune Press Service.)
(Copyright, 1928, by The Chicago Tribune.)

ROME, Dec. 27.—Starting the new year with work as the keynote, Premier Benito Mussolini today notified all ministers and public officials not to call at his office on Jan. 1 to present their new year's wishes, in accordance with the traditional custom. He said this took up much valuable time which could better be spent at work.

He also requested the ministerial secretaries to discard the practice of having their subordinates call on them for congratulations.

New Year's visits in Italy will therefore be confined to special calls on King Victor Emmanuel. It is expected that Sig. Mussolini himself will call on the king at the palace with his New Year's wishes.

Starts War on Tax Dodgers.
With the Italian budget showing a considerable increase over last year because of the large amount of public work undertaken, the government today began a war on tax dodgers, through which it is hoped to increase revenues. A royal decree will be issued shortly promulgating measures against tax evasion.

The final figures on budget estimates, issued today, put the total expense at 17,272,000,000 lire (\$3,652,000,000), with an estimated surplus of about 200,000,000 lire (\$43,720,000), despite the large increase for public works. The increase for public works alone totaled 455,000,000 lire (\$99,842,000). Other increases are 41,000,000 lire (\$8,848,400) for the war department; 5,000,000 lire (\$1,084,000) for

the navy and 107,000,000 lire (\$23,404,000) for colonies.

Mussolini Fares Budget.
Premier Mussolini himself pared down the requested increase of his ministers largely, granting total budget increases of 900,000,000 lire (\$197,160,000), as against 1,500,000,000 lire (\$328,500,000) asked for.

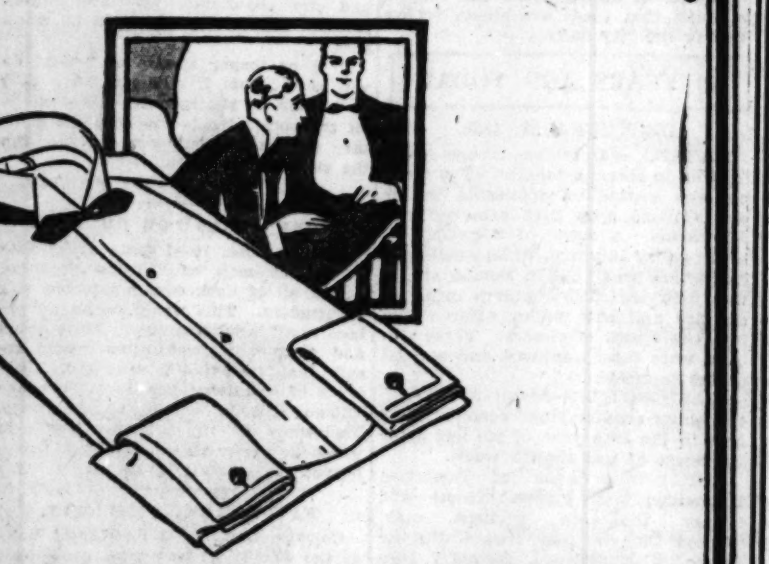

Added revenue is to be obtained through tighter collections and three new tax levies. The tax on wheat is expected to realize 15,000,000 lire (\$3,225,000), the tax on wines 150,000,000 lire (\$32,250,000) and the salt tax 222,000,000 lire (\$48,840,000). Larger revenues also are expected from tobacco and bachelors. A total increase in revenue of \$21,000,000 lire (\$4,554,000) is expected from all these sources. The exact returns from the bachelors' tax are not yet definitely calculated.

Britten Bill Would Compel Use in U.S. of Metric System
New York, Dec. 27.—[Special.]—A bill designed to put the metric system into effect in this country for all merchandising will be introduced in congress next month by Representative Fred A. Britten (Rep., Ill.). It was announced today at the annual meeting of the Metric Association at the School of Business, Columbia university. The bill would require use of the metric system in all buying or selling, and would educate the public in the use of these units of measure so that eventually the system could be installed in factories and the home.

RING IN THE NEW!

Ring Out the Old LOBLAW Groceterias

Are indeed grateful for the wonderful reception extended us since the opening of our first few stores only a few short months ago.

Today we have 44 of these spotlessly clean, self-service Groceterias and the many thousands of discriminating housewives who have patronized us so regularly have clearly demonstrated their acceptance of this modern method of marketing groceries.

There are no salesmen to annoy you or to offer "some other brand just as good."

At all times you will find an extensive selection of the popular nationally advertised brands, which you can select of your own free will, leisurely or hurriedly, as you desire.

Below we submit a few worth-while end-of-the-year values.

A MICHIGAN VICTIM ESCAPES.

The judge and the prosecutor in the Muskegon plant and life case avoided the savage Michigan law by a mercurial conspiracy to defeat justice. Alex Zack, thirty-five years old, a foundry worker and father of a large family, was prosecuted for his fourth liquor law violation and convicted. Harold H. Smedley, the prosecutor, did not file the information that it was the fourth conviction. Judge Vanderwerf, judicially uninformed of what was common knowledge, did not order that the procedure which must have given Zack life be followed.

The offender has been sent to the penitentiary for a period not exceeding a year. In his case as in the other Michigan plant and life cases the violator is an obscure citizen pounced upon in the shadows of Michigan's great illicit traffic in intoxicants. He is not one of the great operators of the run running trade in which Detroit's position on the Canadian border makes it a center. Michigan's barbed wire law has not given the trade even a scare. The nearby states do their illegal trading in Detroit and the law is a futility as to that. It satisfies its fanatic supporters by picking up the wreckage of communities who haven't sense enough to keep from getting caught or sense enough to stop when they know that they are exposing themselves to the witch hunters.

The manifest delight which the fanatics have when they catch one of these wretches whose desire for a drink or for a little money has been too much for his prudence is one of the worst things in the scene. It seems to reveal a whole people gone insane, turned sadistic and thrown off their balance by their inability to have their own way.

Occasionally the officers of the law and the courts will refuse to obey a savage law or to take cognizance of it, themselves taking the common sense of common reasonable and humane action, but this is an additional approach to a legislature which will keep the law in the statute books.

PRESIDENT AND PRESIDENT ELECT.

One of the possibly or even probably awkward situations which the American organization of government hasn't been able to prevent may occur presently in Washington when Mr. Hoover arrives in the city. President Coolidge's holiday trip to Georgia will be over and he will be back in the capital, the president-to-be will be there, and congress is in session. This is Mr. Coolidge's season. His pen is the one to be used on bills, and yet this congress may have considerable effect on Mr. Hoover's first term and also on the question of a second.

Washington comment is that Mr. Coolidge may be expected to be good natured about it and that Mr. Hoover may be expected to be discreet. The President has not nearly the stake in the acts of the present congress that the President Elect may have, but the latter is hardly in a position to be aggressive in outlining his policies and his opinions. Any President might object to a premature exercise of influence by his successor who in fact has the influence because he is the new man about to assume the powers of appointment and the direction of government. At the best there can be a decided embarrassment of government action. The Buchanan period after Lincoln's election is the historic instance and it will be remembered that Mexican affairs got into a bad state while Taft was holding back to give Wilson a free hand in the matter.

It was for such reasons that the change in the time of inauguration has been spoken for. If Mr. Hoover were coming to Washington now from his southern trip of state to be inaugurated at once it would be better. Two months between election and inauguration certainly would be sufficient interval.

MAN SHORTAGE IN THE NAVY.

Man shortage in the navy, says Secretary Wilson, seriously weakens American defense. With the navy personnel gradually reduced in recent years from 84,000 to 32,500, with a dangerous shortage of officers, America enters the second decade of the armistice without the lesson of a safe peace fully learned. Congress and an indifferent people are at fault. The navy does its best.

Airplanes and small cruisers need a higher proportion of officers than do battleships. With the ratio of officers to men, fixed by congress at four per cent, is far too low. The ratio of officers and men should be increased at least to six per cent, and for a skeleton outfit of defense of real efficiency eight per cent would be much better.

Naval personnel problems, like industrial personnel, move in the direction of more skilled labor, and, though the number of men needed per ton of warship is probably much less than it was thirty years ago, the needs today are more imperative. Naval material is now in great part

highly organized and delicate machinery. A higher grade of men is needed for its operation. The number of men that are required are very much required, or the costly naval mechanism will run down. More men, better men, men who want good pay and self-respecting living, are needed for the navy.

THE STATE'S ATTORNEY.

Senator Densen says the assistant prosecutors under State's Attorney Swanson will be carefully selected and wholly for the good of the office, for the conduct of trials, and the administration of justice. Mr. Densen probably has not forgotten how the office should be organized and managed. He made his real start in public life as state's attorney and he was a good one. If he had not been he probably never would have become governor and later senator.

Officially the responsibility is wholly that of Mr. Swanson, but that does not conceal the fact that politically it also is some of Mr. Densen's responsibility. It is the Densen wing of the Republican party which has been given the prosecutor's office at a time when it means more than it ever did before to the welfare and security of the city. There is general confidence in Mr. Swanson's good faith and reliability. If he has the entire support of his political associates and of Mr. Densen, the head of his clan, the prosecutor's office should be restored to its proper place in the system of justice. Mr. Swanson also will need the cooperation of the police and of the sheriff. The indications are that he can get that. The men who make splendid records in the office of state's attorney in Cook county may go far in public life.

MR. SHUMAKER HAS AN EDGE ON MR. SALTIS.

The Rev. E. S. Shumaker, superintendent of the Anti-Saloon League in Indiana, asks release from further amenability to the Supreme court in the matter of his sixty day prison sentence for contempt of court. Mr. Shumaker was taken to the state farm, but he was released at the gate by a pardon from the governor. He paid his fine and through his attorney he now contends that legally he has served his sentence. Attorney General Gilliom, who presented the case of contempt to the court, denies the power of the governor to pardon in such an instance and contends that the sentence remains unsatisfied.

Mr. Shumaker has learned as many ways of beating a case as are known to any of our prominent and well helped but slightly undesirable citizens engaged in the business he makes profitable for them. That is fair enough. He taught them the way to make more money when they thought there was, and they teach him how to get away from an embarrassing jam with the law.

He is even more successful than Mr. Joe Saltis. Joe is doing his stretch.

NEW AND NEWER CHINA.

Quietly in China a modern nation has arisen, and the concluding movements of a revolution that may well stand as one of history's turning points take place without much comment. Yesterday, or a day or so before, China recaptured the control of her own tariff revenues. Today the military chiefs meet to form an army for the whole of China. Chiang Kai-shek, Feng Lu-huang, Yen Hsi-shan, Li Chai-shan, Li Tsung-jen, all will be there. The old decentralized military system, base of all China, probably will pass away for good.

With a national army, well controlled by the modern nation, China can enter the arena of modern nations. She can control her bandits and her undisciplined generals. She can direct her policy, both at home and abroad, with a firm hand. A German expert will advise the training of her troops. Her military budget will be cut down.

New China, largely in the hands of students trained in America and Europe, moves forward on a somewhat western model. At the gate China stands. Few realize today the significance of her entry.

FARMS FOR FARMERS IN MEXICO.

Mexico will keep its farms for farmers if a bill introduced by President Gil is successful in its purpose, and one more step will be made in the consolidation of the Mexican revolution against the great estates of the agrarian country. Though the bill is designed to correct abuses of the more extreme measures of the past, it will be a stabilizing influence, no doubt, and give the new land policy of the revolution a more permanent hold. With provisions in the bill for sure payment and due notice in respect to lands taken over and with protective measures against the persecution of land holders, the drive in Mexico to give the cultivated lands to farmers will gain a new prestige.

Mexico is a rural land. Its hope lies in the trained farmer and in distributive farm ownership. Agricultural training, by schools or by other methods, and the return of the soil to the small farmer will do more to make of Mexico the land that it may be. With 30,000,000 acres of cultivated land, with 120,000,000 acres of pastoral lands, with a hard working people already on the soil, Mexico has good prospects for the future. Visitors in Mexico who see only the great cities do not know the land.

Editorial of the Day

"CHAIN STORE" FARMING.

The opinion is growing that "chain store" farming may be the destiny of agriculture, with the modern grain grower and stock raiser operating as a unit of a big corporation. After four years of managing thirty-two farms in central Illinois under a practical business system, Joseph J. Johnson, director of the farm management department of a Champaign bank, entertains that view of agriculture. Johnson, as farm manager of the bank, controls the operation of 7,500 acres on the thirty-two farms which pay one dollar an acre annually to the bank for its services. The farms of this model "corporation" are all operated by tenants of the land owners in cooperation with Johnson.

When a farm takes over the Johnson system a map of the property is made, soil tests conducted and a building and equipment survey taken. Then a five-year program of crop rotation is laid out, with built-up fertility around a big profit crop, which in this region is corn, and including complete fertilization of the soil during the five years. Under the system the tenant-operator receives one-half of all crops produced, the remainder going to the owner. As an example of how the Johnson system functions, the 20-acre farm owned by W. R. Chambers, in Champaign county is cited. This farm during the last five years showed a net return of \$19,429, amounting to 6.13 per cent on the investment. The big problem, Johnson says, is to procure tenants who are open-minded, industrious and thrifty. Many of the farms now using the Johnson plan were sold to be holding money until the owners placed their lands under the business system.

How to Keep Well

To the limit of space questions pertaining to hygiene and prevention of disease will be answered in this column. Personal replies will be made to inquiries, under proper limitations, when return stamped envelope is enclosed. Dr. Evans will not make a diagnosis or prescribe for individual cases.

SOAP AND BACTERIA.

R. F. R. DAVIDSON adds some information as to the power of the disinfectant soap and its effect on the harmful bacteria. For a number of years facts have been accumulating, which facts seem to make it certain that soap is about the most effective agent we have for sterilizing the skin. Of course, soap cleans off dirt and dead skin and, in that way, protects against bacteria. This kind of action now referred to is not connected with the cleansing powers of soap. Nor is the benefit of soap limited to its action on bacteria on the human skin. Soap is now used to change the character of certain bacteria and their products.

Dr. Davidson's research covered the relative value of different kinds of soap on different kinds of bacteria, and the why and how of the action of each. The bacteria he experimented with were two kinds of streptococci and one kind of staphylococcus. He experimented with some twenty-two kinds of soap. By "kinds of soaps" he referred to the oils from which they were made and not to commercial brands.

Against streptococcus hemolyticus he found six soaps effective enough to be rated. In the order of their virtues for this purpose they were: castor, coconut, linseed, cottonseed and olive. Against staphylococcus aureus, the order was: castor, coconut, linseed, olive, and corn oil. Averaging the results with the three bacteria, castor oil soap clearly held the lead. Coconut oil soap came second with two and four with the third. Linseed oil soap about tied for third place. Linseed oil was third twice and out of the class of the third microbe. Cottonseed oil was fourth twice, fourth once, and fifth once. Olive oil soap was entitled to fifth place. Perhaps corn oil soap and apricot soap could be considered as tied for sixth place.

With other bacteria the ranking might have been different. For instance, one experimenter has found coconut oil soap as the most effective of all against the typhoid bacillus.

COUGHS NOT NECESSARY.

M. I. S. writes: Are coughs always necessary? Do not many coughs proceed from habit rather than necessity? Is the result of spreading infection to throat or lungs?

Your answers will prove beneficial, I am sure, to both coughers and nervous listeners. REPLY. Ninety-five per cent of coughs are unnecessary. Some are harmful—more than 10 per cent are deadly. Most coughs are the result of irritation of the throat or lungs. Most coughs are the result of irritation of the throat or lungs. Most coughs are the result of irritation of the throat or lungs.

NO HARM IN SKATING.

Mrs. G. P. writes: I am 24 years old and mother of one child 7 years old. Would it be harmful for me to learn to ice skate at my age?

REPLY. No.

AVOID COLDS IN WINTER.

Dr. A. L. writes: In a long and extensive experience I have learned how to avoid colds in winter. The method consists in taking two grains of quinine three times daily for one week; then stop for one week, after which take the same treatment for a second week.

FRIEND OF THE PEOPLE

Letter to this department must be signed with names and addresses of writers.

SHEPHERD STATIST.

Chicago, Dec. 26.—[From the People.]—Will you kindly settle a dispute that arose in the family? My mother is an American born citizen, but in 1918 she was naturalized. A foreigner who was not a naturalized citizen, but who became a citizen in 1918. Is my mother a citizen? As it was previous to the law of Sept. 22, 1922, I am under the impression that she is not.

A. O. The woman referred to lost her citizenship when she was naturalized in 1918.

FRED J. SCHIFF, District Director of Naturalization.

NOTHING TO WORRY ABOUT.

Chicago, Dec. 21.—[Legal Friend of the People.]—Two months ago I leased a public garage. Now I hear that this building is going to be forced for sale. I am worried. Is my lease good up to the end of the term? If not, have I any right to sue landlord for damages? F. Y. It seems probable that the mortgage creditor will be satisfied to collect rent from you. We cannot advise as to technical rights without knowing comparative dates of your lease and of the mortgage.

TRIBUNE LAW DEPARTMENT.

CONTRARY TO LAW.

Chicago, Dec. 24.—[Legal Friend of the People.]—My cousin has been living with a man for six years. He has always promised to marry her. She cannot get any support from him, although he is working, but he left her when she was ill.

1. He gave her a diamond, but went to the apartment when she was not there and took it. Can she claim it?

2. He left her for no cause, and also promised to marry her. Can she claim it?

3. He has been living with her for six years. Can she claim it?

4. He has been living with her for six years. Can she claim it?

5. He has been living with her for six years. Can she claim it?

6. He has been living with her for six years. Can she claim it?

7. He has been living with her for six years. Can she claim it?

8. He has been living with her for six years. Can she claim it?

9. He has been living with her for six years. Can she claim it?

10. He has been living with her for six years. Can she claim it?

11. He has been living with her for six years. Can she claim it?

12. He has been living with her for six years. Can she claim it?

13. He has been living with her for six years. Can she claim it?

15. He has been living with her for six years. Can she claim it?

16. He has been living with her for six years. Can she claim it?

17. He has been living with her for six years. Can she claim it?

18. He has been living with her for six years. Can she claim it?

19. He has been living with her for six years. Can she claim it?

20. He has been living with her for six years. Can she claim it?

A LINE O' TYPE OR TWO

How to the Line, let the quips fall where they may. R. S. A.

AWAKENING.

I dreamed of Mr. Pickwick
Last night, and all night long;
Of jovial Mr. Pickwick,
Of mirth, and drink, and song;
Oh, happy Mr. Pickwick,
To have been dead so long!

For friendship's unremembered,
And love is made a jest,
And loyalty is banished
To limbo with the rest;
And Mr. Pickwick could not meet
Our literary test.

For laughter is forgotten
In weariness and grime,
And humor is a travesty
And sentiment a crime;
But Mr. Pickwick has been dead
A long, long time.

DOOROTHY R. KIBLING.

NEW YEAR'S follows so close on Christmas that it steps on its heels. But you don't have to buy things for New Year's. Oh, well, that is, not so many things as you do for Christmas. Some people, of course, have to buy a dozen quarts or so while others have to skip along on a pint.

O. That Was Perfectly Dreadful of You!

Dick: I've said it, I've said it! I did and I'm glad! This morning on the damned L when he stood over me with his gray gloves, and his red tie, and his black and white SPATS, and his green hat, and his damned hair tonic, and, oh, hell, anyway I said it! "Have my seat, Miss!" have my seat, Miss!

LADY CAM.

? ? ? ? ?

Why is Mr. Hoover hurrying back to Washington? That is the question of the hour. Washington is rocking with curiosity. Some say it's because he wants congress to dispose of the farm problem now while Cal wants to pass the buck to the special session that Mr. Hoover said he would call. Other excited persons say that congress is acting up over the fifteen cruiser and Kellogg peace pact bills and that Cal sent for Herbert to come home and crack the whip and make 'em behave. And there are fifty more explanations given. But our guess is just as good as anybody else's. We think Mr. Hoover is going to Washington to visit Mr. Borah on a Good Will tour.

DOGGONE, EVERYTHING EASY BUT LEMONS!

RHL: Looks like most folks got the flu and things is kinda dreary. Went to the depot this morning to see number 121 come in and nobody got off. So then I went to the Bee Hive grocery and when I went to the post office I got a chili—just like that. Well Joe Murdika woman was there and she says last year when she was took with the flu it came just like that and her cousin in Nebraska was took the same way. She says if I would go home and take some whiskey and lemon juice and go to bed I would be all right. Well I went home and by gosh there would be a lemon in this house. So then I went to the Bee Hive grocery and they said they want a lemon to be had. Now what do ya know about a place where ya can get lemons? ORACLE.

Bet He Was Chasing Around Town Before He Decided to Settle Down.

Mr. and Mrs. John W. Leander of West Carroll street happily announce the arrival of a new son at their home last night. The youngster is seven weeks of age. —From the Macomb (Ill.) Daily Journal via Pad.

Freddie Expects 'Em All to Faw

Down and Co Boom, Boom!

Dick: The Tam announced yesterday morning a new \$750,000 ice rink for Chicago, and MacD. McLaughlin says about it: "Present plans of a syndicate contemplate the erection of a rink with an ice sheet 202430 feet, to seat 10,000 to 12,000." Isn't he the pessimist! I. E. SALMON.

A CHICAGO SCIENTIST has discovered a milk tree in Guatemala. Yes, the natives get milk out of the tree for their coffee and ice cream and everything. And the real beauty of a milk tree is that it doesn't swish its tail in your face and stick its right hind foot in the bucket. We wish we had a milk tree in our window box.

Well, Now, That Is Indeed

a Lovely Thought!

Dick: Do something about it! You must! Next Sunday, Dec. 30, is what? Oh, ask me, ask me? Why, it's Al Smith's birthday—that's what it is. Something must be done about this. Why not have you read "I'm for Al and Katie" at your regular Air Line show at 215 over W-G-N? Oh, Freddie would be a lovely celebration of the day. And we'd all be listening and following every word you said (pages 21-223 Linebook of 1928). And we'd all be so very happy to know that Al and Katie were listening in, too. Will you do it if enough of us want you to? JAT JAT BEM.

But Americans Cannot Drink

at Home. (Lykell!)

Old Phil Kinsley, who is with Mr. Hoover on the South American tour, says that in all the cities that have been visited he did not see a single drunken man. And yet every single one of those countries has saloons—and fluently. Which reminds us that we did not see a single drunken man in France, England, Scotland, or Ireland on our trip last summer—except Americans. And we weren't gazing into looking glasses when we saw 'em either.

RONDEL OF VISITATION.

Through Thaiscourt and Saint Mihiel
Another winter walks in white
To find new lives, and all is well
Where once death put our dreams to flight.

Time that will all accounts requite
Pests here his tireless sentinel;
Through Thaiscourt and Saint Mihiel
Another winter walks in white.

The case that we could scarce foretell
Is ours, and we've but to recite
A decade's tale, we who reveal
In peace . . . but whilst our year glows bright
Through Thaiscourt and Saint Mihiel
Another winter walks in white.

THE SOLUTION.

A MAN in Baltimore drank bootch and went alone blind and now he is being thousand bucks for damages. As long as this country insists on drinking that kind of stuff we say again, isn't it fortunate that our national hymn begins—"Oh, say, can you see?" R. H. I.

THE LITTLE BOY IS STILL HOPEFUL

FROM THE TRIBUNE'S COLUMNS

65 YEARS AGO TODAY

DECEMBER 28, 1863.

BOSTON.—The Traveller has a letter from Beaufort, S. C., dated Dec. 22, which says: An expedition is about starting. All is hurry. No one knows the destination, but the fact that it is to be commanded by Gen. Seymour indicates that it is of importance, for he is a fighting man.

WASHINGTON.—Information has been received to the effect that orders have been sent by the imperial government of France to the commander in chief of the French naval forces in the Pacific to place in a state of blockade the ports of Acapulco and San Blas, but through the spirit of liberality and comity of the emperor American packets will continue to have the privilege of stopping at Acapulco for coal.

CHICAGO.—The second lecture of the present winter course before the Young Men's association was delivered by W. A. Richards on "Tom Hood." The lecture was rather sparsely attended, the weather being miserable. Mr. Richards was introduced by W. E. Doggett, president of the association.

CHICAGO.—Morris Morris and Susan Frank, both of Chicago, were married on Dec. 27 by the Rev. J. D. Lindner.

CHICAGO.—Forty-four years ago the first train ran out of Chicago—the G. & C. U. railroad—on strap rail to Elgin. Since then the road has been expanded from year to year until the company now controls and works about 500 miles of tracks, over which eighteen trains leave Chicago daily. This fact led to the gathering of some statistics on Chicago railroads and it is found that there are ninety trains leaving the city daily.

DECEMBER 28, 1898.

HAVANA.—American troops were fired on in Havana tonight. The trouble was started by Spaniards, but it was Cubans who first attacked the Americans. A detail of Company M, 10th regular infantry, while quelling a riot which broke out in Bomba street, was fired on. The regulars returned the fire and sent volley after volley into the crowd of rioters. Three Cubans were fatally injured and several others wounded.

WASHINGTON.—Justin S. Morrill, the senior senator from Vermont, died here in the 89th year of his age after an illness of less than a week.

CHICAGO.—Friends of Benjamin Donnelly, well known athlete and former Princeton gridiron star, learned that he and Miss Catherine Rauch of Englewood, formerly connected with Huyler's State street candy store, were married in Hoboken, N. J., on Oct. 31, and that he and his bride are now at the home of R. R. Donnelly, 4609 Woodlawn avenue.

NEW YORK.—Isabel Alderice Mallon, known to the women of the United States as a writer under the names of "Bab" and "Ruth Ashmore," died in her home here of pneumonia, N. J., on Oct. 31, and that he and his bride are now at the home of R. R. Donnelly, 4609 Woodlawn avenue.

ODESSA.—There has

BUYER OF RUM SENT TO HOME FOUND GUILTY

Court Holds Him Party to
Conspiracy.

Philadelphia, Pa., Dec. 27.—[Special.]—Holding that purchasers of rum may be prosecuted under the prohibition laws if transportation of liquor into the case, Judge William H. Kirkpatrick imposed a \$200 fine on Alfred E. Norris, New York broker, in United States District Court today.

Judge Kirkpatrick's opinion in the case, considered a test one, found Norris guilty of "illegal transportation" of liquor under the section of the dry law prohibiting interstate shipments of alcoholic beverages.

Norris, a former Philadelphian, was assigned last week with Joel D. Ker, an alleged "society bootlegger," saying 18 months in the federal penitentiary at Atlanta.

In pleading "sole contemner," the broker contended that purchase of liquor is not considered as a crime under the dry law.

More Purchase Not a Crime.

In its decision the court declared the mere purchase of liquor is not an offense, but the purchaser can be guilty if in his dealings with a bootlegger it was understood the seller was to make delivery of the liquor.

Noting an appeal to the United States Circuit Court of Appeals was filed by Norris' lawyer, in his decision Judge Kirkpatrick said:

"We agree that the mere purchase of liquor is not an offense under the national prohibition act, and that the purchaser cannot be convicted of aiding and abetting the sale. Further, we will assume, without deciding, that where there is nothing in the case but a simple sale, the purchaser cannot be convicted of conspiring with the seller to make the sale."

Transportation Separate Offense.

"It does not follow, however, that where transportation is required by the agreement, there may not be an agreement to transport, even though that is contemplated is simply the delivery of the thing sold."

"Transportation of intoxicating liquor is made a distinct substantive offense by the act. It is not necessarily involved in every sale."

"The conclusion is: First, that a conviction may be had of a buyer and seller of liquor for conspiracy to transport liquor in a case where the agreement is that the delivery of the liquor will be effected by transportation from the seller to the buyer, and second, that an order by a purchaser to a bootlegger located at a distance, to deliver liquor followed by transportation, delivery and payment is sufficient evidence of such an agreement."

ANOTHER LANSING RESIDENT FACES LIFE PENALTY

Lansing, Mich., Dec. 27.—[Special.]—

Another Lansing resident faces prosecution under the state's habitual criminal law, it was discovered today when Howard "Red" Briley was arraigned on a charge of embezzlement.

Briley is in peril of the mandatory life sentence by reason of three previous dry law convictions. Should he now be convicted of embezzlement, or larceny, to which the charge may be changed, he will be eligible for the life penalty.

Briley is accused of having taken a loaned car to Detroit with the idea of disposing of it. The warrant for his arrest was signed by J. W. Ward, a neighbor. Ward admitted he loaned the machine to Briley, but said that he had instructed him to return it in a few minutes. Instead Briley is said to have taken it out of the city immediately.

Briley first was convicted in 1925, and was sentenced to serve from six months to a year in Ionia reformatory.

Sept. 4, 1925, he was convicted again and drew a one to two years' term in Jackson state prison. He got six months to a year in Jackson again upon his conviction Oct. 28, 1927. All of these offenses were against the state dry law.

U. S. AND CANADA OPEN SMUGGLING PARLEY ON JAN. 7

Seek Way to End Liquor
Trade Over Border.

BY GEORGE SMITH.

(Chicago Tribune Press Service.)

OTTAWA, Ont., Dec. 27.—[Special.]—

It has been agreed upon as the date for the United States-Canadian rum

running conference at Ottawa. Officials of both countries other than cabinet ministers will participate in this first round table discussion. Reports will be made by the officials to their respective governments, and then the ensuing negotiations for treaty amendment will be the subject of diplomatic communications.

The conference will discuss the end of the question of commercial smuggling, but Canada's liquor trade with the dry United States, now aggregating over \$20,000,000 a year, will be the prominent item of debate. No

precedent program for the discussion has been drafted.

U. S. to Make Two Proposals.

It is understood here that the United States is making two proposals to Canada, one that Canada refuse clearance to vessels or vehicles engaged in the transport of liquor across the international line and the other a request for an extradition treaty amendment by which Canadians conspiring to break United States laws may be extradited for United States trials.

It is understood that the American representatives, when they meet the Canadian officials, will present a brief outline of the desires of their government.

It is probable that Dr. C. D. Shelton, Canadian undersecretary of state for external affairs, will be chairman of the Canadian section and that the other Canadians will include R. W. Bredner, customs commissioner, G. W. Taylor, excise commissioner, and C. F. Blair of the customs branch.

Doran to Represent U. S.

Washington, D. C., Dec. 27.—[Special.]—

Treasury department officials said today that revision of the liquor treaty with Canada will be the chief topic discussed by the American delegation to the conference on control of commercial smuggling which will open in Ottawa on Jan. 7.

The United States will be represented by J. M. Doran, commissioner of prohibition; E. W. Camp, commissioner of customs, and Rear Admiral F. C. Billard, commandant of the coast guard, all of which services combine under the direction of the treasury to

prevent smuggling. "The state department will be represented by N. Slinger and Francis Colt De Wolf. Clara Borges will be secretary of the American representatives."

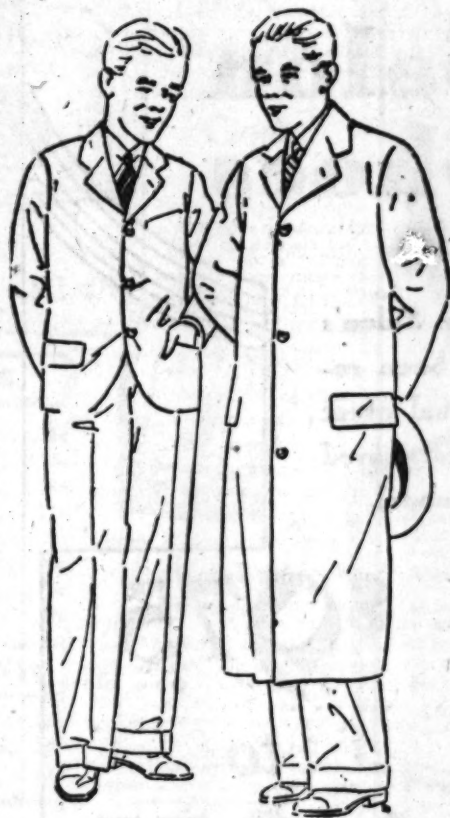

While all phases of smuggling will be considered, Canada was said to be anxious especially to devise means of stopping the illegal entry of silk, tobacco, and alcohol into that country. Large quantities of these commodities, it was explained, are smuggled into Canada each year from the United States, due chiefly to the high duties on them.

To Consider All Smuggling.

From the American standpoint, the conference will seek to devise means of preventing the smuggling of diamonds, narcotics, and liquor into the United States from Canadian points. All these things, officials said, now find their way across the border in large amounts without paying duty.

The government of the United States, treasury officials said, was especially interested at this time in working out with Canada a revision of the liquor treaty which would incorporate into it the terms now in the liquor treaty with Cuba. The Cuban treaty prohibits the clearing of ships from Cuban ports carrying liquor to American ports. The officials said they also would like to see Canada make it unlawful to export liquor to the United States.

In the last year, officials said, Canadian statistics show that more than \$20,000,000 worth of liquor has been cleared from Canadian ports for points in the United States.

\$35 AND \$40 HIGH SCHOOL SUITS AND OVERCOATS \$25

They're all styled the university way—of university woolsens and university patterns and colors. The suits have 2 widely cut trousers—single or double breasted vests—the overcoats are long, swagger, warm and burly

ALDERMEN SEEK SHOWDOWN ON UTILITIES RULE

PhoneFranchiseExtension
Provides Issue.

The refusal by counsel for the Illinois Bell Telephone company to agree to a ninety day extension of the company's franchise cleared the ring yesterday for what apparently will be a showdown fight over the city's right to control public utilities.

The present twenty year telephone grant expires on Jan. 8. To allow time for negotiations, the city council gas, oil, and electric light committee suggested the extension several weeks ago. The company replied that it had "serious objections" to the extension and yesterday its attorney, W. D. Bangs, stated definitely that it would not be acceptable.

Still hopeful that the company will change its mind, the committee passed an extension ordinance which will go to the city council on Dec. 31. It will be formally presented to the company for refusal or rejection. Should it be rejected, the company will be using the streets after Jan. 8 without the city's permission, and from the latter's viewpoint would be a trespasser.

See Appeal to State Group.

The issue between the company and the city, some aldermen believe, is far deeper than the telephone franchise matter. They believe the company, if necessary, means to ignore the city and appeal to the Illinois commerce commission.

In the 1913 public utilities act the state stripped the city of powers to regulate fares, rates and service, but the city holds that it still has control of franchises. Should the telephone company obtain a grant from the commerce commission, the aldermen fear, the transit companies could do the same thing. This would throw the entire transit problem into the hands of the commerce commission.

"If the commerce commission feels that it can take jurisdiction of the city's streets," declared Ald. B. A. Cronson (4th), "some aldermen have advocated Chicago's secession from the state."

Woods Urges Showdown.

Senator Roy C. Woods, attorney for the committee, urged a demand for an immediate showdown by sending the telephone company formal notice that after Jan. 8, unless it accepts the extension, it will be billed for use of the streets. Simon Herr, Woods' assistant, proposed that the city refuse to issue permits to the company to open the pavements for poles, wires and conduits.

Coincident with the extension ordi-

nance, the committee voted to present to the council the draft of a legislative bill designed to clarify the city's franchise rights. Should it be approved, the bill will be submitted to the legislature in January.

The chief point of disagreement between the telephone company and the city is the company's proposal that it pay a compensation of only 3 per cent of its net income to the city rather than 3 per cent of its gross receipts, as in the past.

In lieu of the ninety day extension Mr. Bangs suggested that after Jan. 8, and until negotiations for a new franchise are completed, the company and city enter into an agreement whereby the company could use the streets, agreeing to make its compensation payments retroactive to Jan. 8 when the new franchise is accepted.

Three Youths Are Held as Slayers of Physician

Three youths alleged to have beaten Dr. George W. Thilo to death in the rear of his home at 3550 North Kilgore avenue on Dec. 14 were held to the grand jury on a charge of murder yesterday at a coroner's inquest. They are Raymond Ogden, 23 years old; Raymond Scott, 17 years old, and Allan Goldstein, 17 years old, all of 4541 Sheridan road. Mrs. Charlotte Thilo, the widow of the slain physician, identified Goldstein, and the police reported that the others had confessed their share in the attack. Dr. Thilo, who was 49 years old, was killed while resisting robbery.

VOTE TO SPEND \$250,000, YET SAVE ON BUDGET

Aldermen Plan for New
Garbage Incinerator.

Construction of a new 300 ton incinerator at the present city owned waste reduction plant was agreed upon yesterday by the city council finance committee. Efforts of the committee to economize in drawing up the 1929 corporate budget led it to accept the proposal after it had been shown that the incinerator can be built for less than the loss incurred by operation of the reduction plant.

The attacks on the reduction plant began immediately after the aldermen had been informed that an appropriation of \$618,000 would be necessary for its operation during 1929. "Why not discontinue it?" Ald. Louis Anderson (2d) demanded, and the sug-

gestion was supported by others on the committee.

Amount Is Reduced.

Removal of garbage north of the Chicago river to the Goose Island incinerator reduced the amount formerly hauled to the reduction plant by two-thirds, the aldermen were told. The revenue from the garbage extracted decreased and the cost of garbage disposal at the plant rose to \$3 a ton. The cost of operating the Goose Island incinerator, it was pointed out, is only \$2.25 a ton under a private contract which is expected to be reduced to \$2 a ton when the city takes over the operation on Jan. 1.

To run the reduction plant for the year 1929 would entail a loss to the city of \$400,000, the finance committee's staff reported, while the construction of the incinerator would cost approximately \$200,000. Ald. Guy Guernsey (4th) then moved that the committee set up \$500,000 in the budget for garbage disposal at the plant at 39th and Iron streets. Of this sum one-half will be used as a nucleus for the purchase price of the incinerator

and the other \$250,000 will operate the present plant until the former is completed.

Kager's Plan Is Lost.

Failure of the board of education to appropriate \$55,000 to support a bureau of dental hygiene for school children defeated the project urged before the committee by Dr. Arnold H. Kager, health commissioner. The committee had set up an appropriation of \$110,000 for the bureau contingent upon the agreement that the school board pay one-half of the expenses.

Consideration of the large appropriations for the public works and law departments will be taken up today by the committee in an attempt to finish the budget by tonight. Yesterday Thomas H. Byrne, superintendent of streets, told the committee that the \$700,000 reduction made by the controller in the item for street cleaning activities would handicap the department.

SHOT, BOMBED BY BANDITS.
Henry Kagle, 46 years old, 517 West 54th place, was shot in the left leg by two robbers early yesterday. The man fled with \$50.

Proficient barbers... not persistent salesmen!

Of course Terminal barbers are skilled... or they wouldn't be Terminal barbers. But high grade barbers can't be high-powered salesmen—at least, not in Terminal Shops. Here you are not harassed and plagued and provoked by uninvited coaxing and exhorting to accept unwanted attentions. Instead, your Terminal barber concentrates on the service you ask for... he knows his job isn't selling, but barbering.

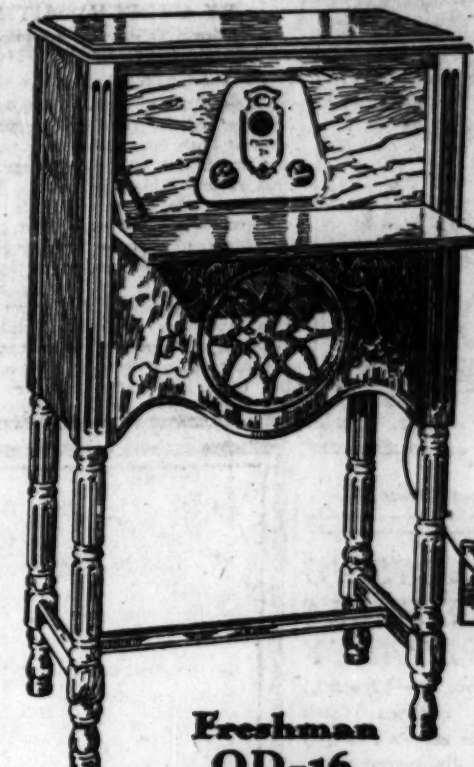

Incidentally Terminal service does its own selling. Most of our customers are "regulars." If you try Terminal service just once, you'll want to join up. You'll be in good company.

COOLIDGE BAGS PHEASANTS AND 2 WILD TURKEYS

Tries His Marksmanship
at Island Live Birds.

Spaleo Island, Ga., Dec. 27.—(AP)—In the well stocked game preserves of Howard E. Coffin, President Coolidge tested his marksmanship today at the Spaleo island and found it good. Three pheasants and two wild turkeys returned in the game bag when the President returned with his party to the island mansion.

Today's hunting took place on Little Spaleo Island, which is separated from Spaleo Island proper by a narrow channel and expanse of marsh grass. Accompanied by Col. Osmun, his military aid; Alfred W. Jones of Brunswick, Edward Varney, a relative of Mr. Coffin, and Col. E. W. Starling of the White House secret service, Mr. Coolidge took a speedboat for the game preserve.

Follow English Custom.
The hunting was done in the English fashion. The President and Col. Starling, the only other member of his party to carry a gun, stationed themselves at one side of a broad field while Negro beaters worked their way through the surrounding brush flushing the birds. As they flew past Mr. Coolidge and Col. Starling alternately aimed away. Starling brought down three pheasants.

The wide sombrero presented to the President in the Black Hills was part of his equipment for today's expedition. A leather jacket, riding breeches and high, laced boots completed his outfit.

Another hunting party is planned

IF THERE IS MEAT AT ONE END OF A BOAR—THERE ARE SHARP TUSKS AT THE OTHER—

Copyright 1928 by The Chicago Tribune

for tomorrow morning when Mrs. Coolidge may be a member. There is a possibility that the first lady may try a shot or two with a light fowling piece provided by her host.

While the President was hunting today Mrs. Coolidge posed for Frank O. Salisbury, an English artist, who accompanied the Coolidges to Georgia to make a portrait of the President for the New York Genealogical and Biographical society. Mr. Coolidge had his first sitting this afternoon.

Girl of 6 Finds Whisky

Bottle; Drinks and Dies

New York, Dec. 27.—[Special.]—Twelve hours after she had swallowed part of the contents of a bottle of whisky kept in the house for medicinal purposes, Ida Matina, 6, of Brooklyn, died in a Long Island hospital early today. Death was due to alcoholism, the police say.

The mother found the girl in a coma with the bottle beside her. The rest of the whisky has been sent to the city chemist for analysis.

HOOVER CROSSES EQUATOR TODAY ON TRIP NORTH

Asks No Salutes When He Lands on Jan. 6.

ON BOARD U. S. S. UTAH, Dec. 27.—President Elect Hoover today left behind him the last sight of land that he will have until ten days from now when the battleship Utah sights the Virginia capes.

Rounding the northeastern corner of Brazil, a great shoulder of land jutting far into the Atlantic, the Utah this afternoon headed due north for the equator, which it will cross late tomorrow.

All morning the mountains of the Brazilian coast were visible 20 or 30 miles away across the blue tropical waters which rolled gently under southeastern trade winds.

Steamers 350 Miles a Day. At about noon, off Natal, the Utah was 22 miles from shore, the closest to land that it had been since leaving Rio de Janeiro. Its noon position was 5.56 degrees south latitude and 34.46 west longitude, or about 356 miles south of the equator.

The Utah is steaming about 350 miles a day and today had passed from the equatorial zone of the last few days. Today's weather was pleasant, because the equatorial heat tempered the steady breeze.

During the morning the President Elect watched "general quarters," a ship drill consisting of battle practice and theoretical firing with long range guns. Every bluejacket took his battle post and all the operations of engaging an enemy were carried out except the actual firing of the guns. Mr. Hoover also read and dictated letters and walked on deck for exercise.

Hoover to Land Jan. 6. Washington, D. C., Dec. 27.—(AP)—In a message from the battleship Utah to the commandant of the fifth naval district at Norfolk, Va., President Elect Hoover requested today that "all salutes, honors, and calls be dispensed with" on his arrival on Jan. 6 at Hampton Roads, and that all military and naval authorities at Norfolk and Fort Monroe be notified of his preference in this matter.

If the weather permits, the message stated, the Hoover party will disembark at Old Point after luncheon, going directly from the dock to the railroad station to take a special train to Washington.

Peru to Send Ambassador. LIMA, Dec. 27.—(AP)—The Peruvian government will send an ambassador extraordinary to witness the inauguration of Herbert Hoover as President of the United States, March 4, it was announced today. Gen. Cesar

HIGHEST DEATH RATE CALIFORNIA; LOWEST HONOR GOES TO IDAHO

Washington, D. C., Dec. 27.—(AP)—Recording the national death rate for 1927 at 11.4 persons per 1,000 population, the department of commerce reported today that of the states Idaho had the lowest rate, with 7.1 per 1,000 population, and California, Vermont, and New Hampshire the highest rate, with 13.9 per 1,000.

The Illinois rate was 11.4, Indiana's 12, and Wisconsin's 10.

The national death rate was estimated from the deaths reported in the 42 states and the District of Columbia, which have official systems of registering births and deaths.

In 11 states of large Negro population separate death rates were figured for white and Negro inhabitants, and in all of these the Negro death rate was materially higher than the white.

The highest death rate for Negro inhabitants was 21, assigned to Kentucky, while the lowest was 12.8, in Arkansas.

Landmark, chief of the general staff, has been named for the place.

Brazil Plans Special Envoy. RIO JANEIRO, Brazil, Dec. 27.—(AP)—The possibility that the Brazilian government may send a special ambassador to Washington for the inauguration of Herbert Hoover has been suggested here.

There seems to be a general feeling in government and popular circles that such a gesture would be particularly appropriate in view of the enthusiastic way in which the people of Brazil welcomed the President Elect. No official action has been taken, however.

It is usual for Brazil to send a special ambassador to inaugurations in neighboring countries, such as Argentina and Uruguay, but this would be the first time that such an ambassador would be sent to the United States for an inauguration.

CHICAGO UNIONS SEEN ADEQUATE TO BUILD FAIR

Patrick F. Sullivan, president of the Chicago Building Trades council, announced last night that if construction of buildings for the World's Fair of 1933 starts during 1929 the 110,000 building trades workers of the city will be adequate and no outside help will be needed.

Sullivan said that labor unions throughout the country have been notified that construction work has not started and that if officials are not yet ready to begin building, he as president of the city union is possible that many unskilled workers have come to the city in anticipation of a building boom.

Sullivan asserted that if construction is started the country will be circularized informing labor organizations that Chicago's building trades workers can handle the situation without outside help.

Fight "FLU" Epidemic Through Citrus Fruit Protection, Doctors Say

Former President of Hahnemann Hospital, Chicago, tells here of precautionary measures — Florida rushing oranges and grapefruit to "flu" stricken cities.

FOREMOST physicians say that one of the quickest, most effective precautions against influenza known to modern medicine is to eat—and drink—citrus fruits and grapefruit plentifully.

For citrus fruits turn alkaline in the system—build up the alkaline reserve that increases resistance to common colds, grippe and influenza. They provide vitamins and mineral salts that help the general health of the body—for oranges and grapefruit are one of the world's richest known sources of these vital food factors. They combat acidity—so often resulting from the usual heavy winter diet—acidity which is an internal enemy of the body, lowering normal resistance and inviting illness.

Start Citrus Protection Without Delay, Doctors Warn. Now, with the influenza epidemic raging in city after city throughout this

country, leading doctors everywhere are urging adults and children to take the precautionary health measures listed here to help fight the disease.

Everybody, young and old, should have plentiful amounts of Florida Oranges and Grapefruit every day—several times a day. A glass of orange juice or half a grapefruit for breakfast is nowhere near enough. Serve Florida Oranges or Grapefruit at every meal—and in between times. The newest way for grapefruit is a drink—squeezed right into the glass—chilled—sweetened a bit if preferred.

But in whatever form, remember that at this time Florida Oranges and Grapefruit are recommended urgently by modern doctors as one of the most important protective measures possible against the "flu" and other kindred illnesses.

This advertisement is sponsored by the Florida Citrus Growers' Clearing House Ass'n, Winter Haven, Florida.

DR. DANIEL R. HODGSON, of New York, formerly President of the Hahnemann Hospital in Chicago, has successfully prevented colds and "flu" among 1,100 children whose diets he now personally supervises. He says:

"Too much stress cannot be laid upon the use of citrus fruits and fresh vegetables during any influenza epidemic. Each person should eat generous amounts of oranges and grapefruit, together with plenty of raw vegetables every day."

"Should you feel a cold coming on, an extra measure of protection is to drink

the heated juice of a grapefruit just before retiring, in addition to the grapefruit and oranges you take several times during the day. There is no surer way of breaking up a cold or influenza."

"Avoid the use of excessive protein and carbohydrate foods. Avoid rich foods and overeating. Get plenty of sleep, keeping windows open. Keep house temperature even throughout the day, avoiding overheating. Stay out of crowds if possible."

"If you feel ill, consult your physician immediately."

Samuel R. Hodgson

CITY DEATH RATE UP 8.6% IN 1928, FIGURES REVEAL

Heart Disease and Flu Blamed for Increase.

Due largely to heart and respiratory diseases, Chicago's death rate has increased 8.6 per cent during 1928, according to the annual health department report completed yesterday. The 1927 rate was 11.5 deaths per 1,000 population. This year it was 12.5.

"Chicago may be comforted, however, by the fact that its death rate has remained consistently below the average of the United States throughout the year," said Health Commissioner A. H. Kegel. No complete statistics have been received from other cities, but Dr. Kegel explained that the figures available indicate an upward trend everywhere.

More persons die of heart disease than from any other cause, the report showed. So far this year deaths from heart trouble totaled 6,453. In the same period last year the number was 5,552. Deaths from pneumonia and influenza, in round figures, increased from 3,000 in 1927 to 4,000 in 1928. During the December epidemic of influenza and pneumonia about 600 persons have died.

Smallpox More Prevalent. "Smallpox has been more prevalent than in former years," the report continued. "There have been 143 cases reported. However, there have been no deaths."

Hydrophobia or rabies has been one of the problems of the department this year. There were 7,718 persons reported bitten by dogs, with seven deaths resulting from the disease. There were 1,330 dogs heads examined, 360 of which were found positive for rabies.

The typhoid fever statistics marked the highest note of optimism in the report. In 1925, 1926 and 1927, Chicago had the lowest typhoid death rate in the country. Dr. Kegel said, while this year the rate was less than two-thirds that of last year. Only 125 cases and 13 deaths were reported.

City's Birth Rate Declines. There was a slight decline in the Chicago birth rate during the year. No final statistics are as yet available.

Dr. Kegel cited as his most important work of the year and for the coming year the physical and dental service for Chicago school children. An experimental health center for children has been established at the Kinzie school. Through cooperation with the Chicago Dental society, the teeth of 66,000 children have been examined. Of these 98 per cent were found defective.

BRITISH WOMEN ROUT MEN IN RACE FOR CIVIL POSTS

Win Many High Jobs in Government.

BY JOHN STEELE. (Chicago Tribune Press Service.) (Copyright, 1928, by The Chicago Tribune.) LONDON, Dec. 27.—Women are invading Whitehall, the center of the British government offices, in large numbers. In the fight for posts in the civil service, women are fighting men all along the line, and winning.

Out of 600 people taking the recent civil service examinations, 304 were women. The regulations allow women to compete for any civil service post except the Indian civil service, the consular service, the customs service, certain branches of the postoffice, telephones and foreign office.

Woman Wins Hard Test. The greatest victory was secured recently by Miss Nancy Procter-Gregg, who was appointed assistant principal in the ministry of transport. She won the post in competition with men in the home civil service examination, which is regarded as one of the hardest tests in the world. Her victory is regarded as the outstanding achievement in the war which women are waging in Whitehall.

As a result of the recent civil service examination for appointments to executive posts in the defense and audit departments, assistant auditorships in the exchequer and state duty office of the inland revenue department, twenty-eight women candidates were successful for eighty-seven vacancies. Two women were among the first ten and five women among the first twenty successful candidates. The ages of the competitors were 18 and 19 years.

Win Many Positions. Until three years ago women were not allowed to compete for administrative grades in the civil service, but since then many have won positions which may lead to the highest honors in the service.

Evanston Chief Passes on His Slaying Case Reward

Chief of Police William O. Freeman of Evanston yesterday distributed \$250, representing his share of the \$2,000 reward for the capture and conviction of David Shank, colored slayer of Miss Jennie Constance, among ten of his subordinates who were not mentioned by the award committee. The following shared in Chief Freeman's distribution: Lieut. Carl Ekman,

\$50; Fred G. Bennett, finger print expert, \$50; Juvenile Officer Eugene Worthington, Policewoman Georgiana Juul and Policeman Robert Borland, \$25 each; Sergt. Ben Hanks and Policemen Ed Hansen, Sam Bell, George Dargin and E. Goben, \$15 each.

BABY SMOTHERED IN BED. John Decker, 4 months old, was found dead in bed at his home, 2030 West Harrison street, yesterday morning. Apparently he had smothered to death under the cover.

Miss Elizabeth Drake daughter of Mr. and Mrs. John B. Drake Distinguished "Blue Book" Chicagoans is a CHECKER CAB enthusiast

No doubt on their way to rehearsal for the benefit performance of "Coquette" which was given on December 26 for the Emerson Settlement Charity Fund were Miss Drake and Miss Jane Schuttler when here photographed entering a checker.

Photo Moffett Studio

ANYONE who imagines that Gold Coast Chicago never motors except in its own private cars would be surprised to note the number of calls per day that Checker receives from famous numbers in the Superior and Whitehall exchanges.

Family cars and family chauffeurs often are not available just when needed most and so the town's smart social world does the next best thing on such occasions. It puts its motoring requirement in the hands of Checker.

Checker, as informed Chicago women of all classes know, operates a fleet of 1700 extremely roomy, extremely comfortable, smartly appointed limousines among which Packards, Pierce-Arrows, Cadillacs and similar costly cars are numerous.

The Checker drivers are mature, gentlemanly, responsible men, most of them native Chicagoans who know the city and respect its good name. Each one of them has a substantial property in-

terest not only in the cab he drives, but in every other Checker cab. Their accident rate, according to responsible authority, is the lowest of any taxicab company in the world. A \$4,000,000 liability insurance policy further protects Checker's passengers.

By their great and continually growing preference for Checker Cabs, Chicago's women are supplying the best evidence of the esteem in which Checker is held in this city. During the past year the monthly increase in telephone calls for Checkers has, we believe, been far ahead of any other taxicab business in Chicago.

Chicago's women, particularly, are according Checker more and more of their patronage. And their out-of-town guests often tell them that nowhere in this country is there anything to compare with the high character of taxicab service that Checker is giving the people of Chicago twenty-four hours out of every day.

COULIDGE ACTS TO HALT GOUGE ON FLOOD LANDS

**Orders Mississippi Zone
Condemnation Suits.**

(Chicago Tribune Press Service.)
Washington, D. C., Dec. 27.—(Special.)—Steps to prevent the United States from being gouged by owners of lands included in the Bonnet Carre project have been taken by President Coolidge, it was learned in Washington today.

In the recommendation of the war department, the President has approved plans for condemning such lands as are needed for the construction of levees in the Bonnet Carre project, Louisiana, where land owners are asking an average of eleven times as much for their property as it is worth on the assessment lists.

Unreasonable Prices.

Proceedings will be instituted, it was said today, under the provisions of section 4 of the flood control act. This section provides that the secretary of war may acquire by condemnation such lands as are needed for the control of the Mississippi where unreasonable prices are asked.

The Bonnet Carre spillway is one of four floodway projects provided for in the flood control bill. It will be constructed not far from New Orleans, a safety valve for the protection of the city. In case of an abnormal flood, water could be diverted from the Mississippi into the spillway, where it would escape gulfward through widely spaced levees. A total of 1,125 acres of land is needed for the levees and the floodway.

According to figures made available by the war department today, owners of property included in the Bonnet Carre project are asking on an average of \$241 an acre for their land. The property is assessed on a valuation of \$23 an acre. The asking price actually amounts to \$1,000,000 in round numbers, a figure slightly more than \$100,000 in excess of the assessed valuation. The assessed valuation is \$18,444.

Condemn Only 838 Acres.
The war department will condemn only such land as actually is needed for building the levees bounding the spillway, it was said. In this project only 838 acres will be condemned. Owners of the balance of the property will be purchased if the government and land owners can agree on a price.

Steps for beginning condemnation proceedings now is being prepared under the orders of Maj. Gen. Edgar Smith, army chief of engineers. The proceedings are to be instituted in District courts where land is located. The court will appoint a commission of three to set a price on the property.

9 FOOT CHANNEL HEARING CALLED FOR JANUARY 16

Rock Island, Ill., Dec. 27.—(AP.)—With a purpose of determining public

benefits through the establishment of a nine-foot channel on the upper Mississippi river Maj. C. L. Hall, district United States engineer at Rock Island, has called a public hearing to be held in St. Paul on Jan. 16.

Views of interested cities and organizations on the Mississippi from

the mouth of the Missouri to Minneapolis will be heard at that time. Maj. Hall in a recent report to the division engineer at St. Louis opposed establishment of a nine foot depth, giving for his reasons the fact that such a project would not be economical in view of the little traffic prevalent at this time.

Do these two things to avoid "flu"

Keep your system in good condition; also protect your nose and throat

There's no need to get panicky, because the papers are full of news of an influenza epidemic. There's no use in isolating yourself because a lot of other people are sick with it. If you take certain simple precautions every day—and then don't worry—the chances are you will throw off any "flu" germs you are exposed to, and keep well.

We're not recommending that you dose yourself with a lot of medicines, either. Just observe two common-sense health rules which can be easily followed.

FIRST of all, make sure your system is in first class order. Don't let it get slowed up or sluggish. See to it that it functions perfectly. The easiest way to get run down and in a condition to pick up disease is to neglect this all-important matter.

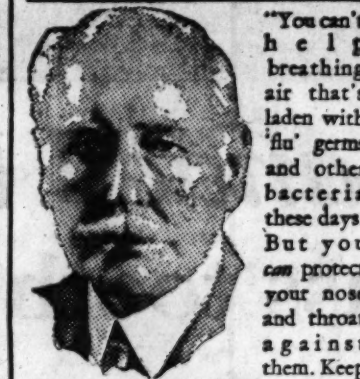

Physicians agree that, particularly in times of epidemic, purging by laxatives and cathartics is not advisable. Many doctors are therefore prescribing Nejol, as in no case does it cause exhaustion or weakening of the system in any way.

Nejol can't possibly upset you or disagree with you. For it contains absolutely no medicine or drugs.

Get a bottle today at your nearest drug store and start taking Nejol tonight as a simple way to keep fit and to protect yourself against influenza.

That's the first precaution. Now for the second. Keep your nose and throat well protected with Mistol.

Dr. David says:

"You can't help breathing air that's laden with 'flu' germs and other bacteria these days. But you can protect your nose and throat against them. Keep them from lodging there and breeding and causing trouble."

"I'm advising all my patients these days to keep Mistol on hand and use it regularly. The first thing in the morning before you go out. And again at night when you come home. Don't be afraid to use it freely. It will do no harm. And then stop worrying. You've done all you can to safeguard yourself."

"Put Mistol up your nose. There's a special dropper that comes in every package that makes it very easy to use. Just tilt your head back and drop it in your nose until you feel it

in your throat. You'll notice the pleasant, cleansing effect at once. Mistol clears your head and makes breathing easy. It has a healing, soothing effect on the membranes and relieves any irritation or inflammation. It helps dry up a running nose. Use it, too, as a gargle. Mistol is good for a sore throat or hacking cough. And above all, protects the nose and throat against germs.

"Don't wait till you begin to sneeze or your throat aches. Take my advice and get a bottle of Mistol today. Every druggist knows it."

The combination treatment of Nejol and Mistol is a double safeguard against influenza. Start this wise two-fold precaution now. Don't delay.

Nejol and Mistol are both made by the same famous laboratories, of the finest quality materials and with the greatest skill possible. Both preparations are harmless. At all druggists. Aren't they worth trying?

BENNETTS

2nd Floor Kesner Bldg., 5 N. Wabash Ave. Corner Madison

Annual After Christmas CLEARANCE

Every Dress - - Every Coat MUST Go!

THE MOST SENSATIONAL AND DRASTIC REDUCTIONS IN OUR HISTORY

Again Bennetts will make history in the better type wearing apparel field. Tomorrow morning at 9:00 the women of Chicago can buy exclusive Bennetts creations at less than cost. Every Fall and Winter garment in our entire shop must be sold . . . nothing remains . . . and price will not stand in the way of accomplishing this end. A Frock in Lace

Cire lace in rose-pink creates a chic evening frock with its starry sheen wrapped in the chiffon of the petal-shaped cape. For women. Sketched at the right, above. \$195.

A Wrap in Metal Cloth

This wrap uses gold, red, black with a deftness that is a note of perfection to the evening gowns of summer. Red velvet lines the shoulders and fashions the collar. Black and gold are in a conventional design. For misses. Sketched at left. \$175.

SCHIRESON SUED AGAIN; CHARGES FLY BOTH WAYS

Attorney Says He'll Take Case to Grand Jury.

Dr. Henry J. Schireson, plastic surgeon, and Philip R. Davis, lawyer, continued to play each other with charges yesterday. Davis announced he would prove Schireson a quack, and Schireson, through his attorneys, announced steps to prove Davis a lawyer.

Davis during the day filed the praecipe in another suit against Schireson, this one in behalf of a new client, Herbert Reichert, of 1985 Burlingame street. Davis announced, making \$10,000 damages from Schireson on a charge of malpractice.

Damaged Nose, He Says.

Reichert's story, as related to Davis, is that four years ago he went to Schireson to ask him what it would cost to have his nose straightened. The nose had been broken. "He told me \$225," said Reichert. "After I talked to him awhile, he noticed a mark on my cheek, which seemed to remove the scar. He told me my nose full of wax and the wax congested. He perforated the septum in my nose and now I can breathe through only one nostril. "He applied some stuff to my scar which blistered my face, and every day asked me what was wrong and I had to quit my job. Last winter I went to another doctor and he removed the wax from my nose." Attorney Davis said he was preparing evidence to present to the grand jury and announced he would have fifty witnesses to testify against Schireson.

Schireson's Attorney Replies.

Meanwhile Attorney Joseph Z. Wilbur, counsel for Schireson, announced that on the face of Davis' own statements the latter had convicted himself of unethical practices.

"Davis has filed suits against Dr. Schireson in cases in which the status of limitations has long run out," Mr. Wilbur stated. "The law provides that claims for personal damages must be filed within two years, and these cases cited by Davis are all older than that. Clearly, if the cases are outlawed in that manner, the only purpose of Davis is to blackmail and extort money from Dr. Schireson. My partner, Benedict J. Short, and I will file formal charges against Davis tomorrow with the grievance committee of the Chicago Bar association asking his disbarment. We also will ask State's Attorney John A. Swanson to permit the matter to go before a grand jury."

Diamond Fields in Africa Menaced by Hungry Farmers

BY W. J. MAKIN.

[Chicago Tribune Press Service.] CAPE TOWN, South Africa, Dec. 27. — Sensational rumors are being spread in Cape Town that more than 1,000 farmers in Namaqualand have been driven to desperation by drought and starvation and have banded together to invade the richest diamond field in the world at Alexander Bay, which is owned by the South African government.

The desperate farmers are said to have rifles, ammunition and also machine guns at their disposal. A specially chartered ship is lying off the coast ready to take aboard any diamonds that might be seized by the invading forces.

Rush Police to Fields.

Police armed with machine guns were rushed from Cape Town in special motor lorries. Private cars were also commandeered for the 400 mile journey through the sand. F. W. Beyers, minister of mines, refused to make a statement and complete details of the outbreak are not yet available.

The center of disaffection is Port Nolloth, where diamond smugglers are agitating in the saloons among farmers, who abandoned their farms, lured by the tales of fabulous wealth lying around loose in the diamond diggings.

Force Release of Prisoners.

A few days ago fourteen whites were arrested by the police, who found them lurking in trenches on the diamond diggings. They were imprisoned at Port Nolloth. Nine were let out on bail.

A demonstration was staged outside the prison by 200 of the farmers, demanding the release of the other five whites. The authorities hurriedly released the men.

Indicating the extent of the lawlessness existing in Port Nolloth, airplanes carrying diamonds to Cape Town are heavily armed with machine guns and each pilot is armed with a revolver.

NAVY ABANDONS SPRING CRUISE TO SO. AMERICA

Washington, D. C., Dec. 27.—[Special.]—Plans for American naval vessels to cruise along the west coast of South America in February and March, after tactical exercises in the Panama area of the Pacific, were abandoned by the navy today without explanation.

A definite schedule of operations was approved on Dec. 1 for the scouting fleet. It was to have sailed from the canal zone on February 21 for Callao, Peru, where the blue jackets were to be given shore liberty. Intimations were that the cruise might be extended to Valparaiso, Chile, and that the battle fleet might accompany it.

Under a schedule of operations approved today for both fleets, they will remain in the Panama area until early in March. Then the battle fleet will sail for San Pedro, Cal., and the scouting fleet will go to Guantanamo.

Secretary Wilbur declined to discuss the change. The state department also declined to advance any reasons for omitting South America from the schedule.

DICKINSON WILL LEAVES \$250,000 ESTATE TO SONS

Bequests Are Made to Nashville Institutions.

The will of Jacob M. Dickinson, who was secretary of war under President Taft, was filed yesterday before Edward S. Scheffler, assistant to Probate Judge Henry Horner. The testament disposes of an estate estimated

at \$250,000. The first few paragraphs of the document are devoted to the distribution of articles of more sentimental than intrinsic value. Mr. Dickinson left his fishing outfit to his son, Jacob M. Dickinson Jr., lawyer, and his guns and other paraphernalia to his other surviving child, Henry Dickinson of Nashville, Tenn.

Son Is Given Portrait.

Jacob Jr. also receives a portrait of his great-grandfather, Jacob McGavock, who was an aide to Gen. Andrew Jackson, and an oil painting of his great-grandfather, Felix Grundy, who was a United States senator from Tennessee in the '20s and was attorney general of the United States under President Polk.

Henry is left a portrait of his grandfather, Henry Dickinson, a famous Tennessee judge.

As for the more material part of the estate, after a few minor bequests to charity, a third of the residue is bequeathed to Jacob Jr., and the remaining two-thirds is left in trust for

the benefit of Henry, his wife and two daughters.

Nashville Asylum Remembered. The charity bequests are all for institutions in Nashville, where the Dickinsons lived for several generations before moving to Chicago in 1899. The Protestant orphan asylum is left \$1,000 and the Lincoln Memorial university and the George Peabody College for Teachers are given \$5,000.

The will, dated July 2, 1927, provided for a gift of \$200 to a servant, Sally Terrell, but she lost this bequest by leaving his employ before his death.

Mr. Dickinson, a civil war veteran, died on Dec. 13 at the age of 73. His residence was at 31 East Elm street and his office at 231 South La Salle street.

FINE ON GAMBLING CHARGES.

Israel Carr of the Flinders hotel, 4143 Broadway, was fined \$100 yesterday by Judge Herbert G. Immenhausen on a charge of operating a bookmaker's office in his home. Four saloons, Lawrence Masarik, Mrs. Myra Cole, 30 years old, Mrs. Anna Sheridan, 28 years old, and Mrs. Mary Brennan, 38 years old, all residents of the Flinders, were fined \$5.

Guarding Against the FLU

Any cold can mean the flu; the surest way to avoid flu is to avoid colds

To avoid coming down with a cold make prompt use of Bayer Aspirin.

Don't wait to see if that first sneeze or cough is going to be a cold. Take Bayer Aspirin at the first sign of any cold, and be safe.

And whatever you do, don't neglect a sore throat these days; gargle with Bayer Aspirin and remove the infection.

Guard against the flu by guarding against the colds that make you susceptible to the flu germs that lurk in crowded cars, public places, wherever there are people. Bayer Aspirin tablets are indispensable at such a time. Get the pocket box. Carry it with you.

At OKLAHOMA CITY'S Doorstep

A new Major Oil Field

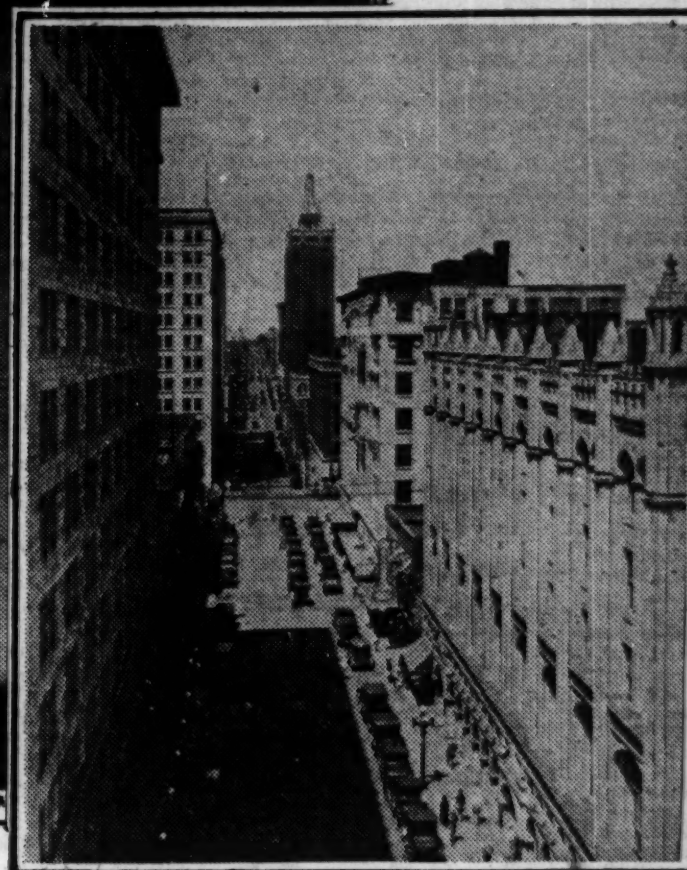

On Tuesday, December 4th, at 3:15 p.m., the Indian Territory Illuminating Oil Company brought in a gusher with a daily production of 5,000 barrels—Oklahoma City's first oil well! This gave tremendous impetus to drilling operations. Preparations are being rushed for immediate additional drilling.

December 4, 1928 is destined to rank with April 22, 1889, the date of the memorable "run" that opened the Cherokee Strip and first settled Oklahoma City, in marking the city's epochal stages of growth.

The new oil field, right at its door, inevitably means a stupendous growth for Oklahoma City!

Six miles from heart of Financial District

OKLAHOMA CITY has for years participated from a distance in the discovery and development of other Oklahoma oil fields—but she has now for the first time her own private oil field—and what a difference there is in the degree of excitement!

For the new oil field is only ten minutes from the heart of Oklahoma City—a scant six miles from the center of the financial district.

With the discovery well flowing liquid gold at more than 200 barrels per hour—crews working furiously setting up rigs for the drilling of at least 30 additional wells immediately—Oklahoma City is experiencing the novel sensation of an oil boom without the lawlessness, inconvenience, or hardship that the words "oil-boom" bring to mind.

Oklahoma City, Capitol of the State, is already one of the leading markets of the Southwest territory. With oil to add impetus and momentum to its already remarkable growth, industries located here will prosper accordingly.

As key city to a billion dollar market, center of a state larger than any state east of the Mississippi River, Oklahoma City has the following sources of wealth:

- Zinc—Largest Production in U. S.
- Lead—Second Largest Production in U. S.
- Cotton—Third Largest Production in U. S.
- Winter Wheat—Second Largest Production in U. S.
- Petroleum—Largest Production in U. S.

Oklahoma City is the logical point from which to serve this wealthy market. Already 75% of all commodities sold in the state are distributed from here. Forty per cent of all goods manufactured in the state are made here.

Center of the Great Cotton and Winter Wheat Area

These two great resources, so easily available to Oklahoma City's industrial area, are the fundamental factors of this city's wealth.

The uniformly high value of cotton crops is shown as follows:

1926—\$94,575,000 1927—\$102,663,000 1928—\$102,660,000

Winter wheat values for the same period were:

1926—\$87,019,000 1927—\$40,046,000 1928—\$65,558,000

The total value (1928 only) of Oklahoma's manufactured, farm, mineral, and forest products will reach the staggering total of \$1,465,150,000!

Building has shown a steady, consistent, gain year after year in Oklahoma City. 1928, as did 1927, shows a 50% increase!

1926 — \$10,024,228
1927 — 16,238,714
1928 — 25,000,000 (Approximate)

Estimated 1929 Building Program, \$29,000,000.

The buildings shown here are new—completed during the past 18 months. The \$4,000,000 Oklahoma-Biltmore Hotel shown at the right, has just been contracted for.

The Photographs are:

- 1—Oklahoma-Biltmore Hotel.
- 2—Telephone Building.
- 3—Medical Arts Building.
- 4—Okla. Gas & Electric Bldg.
- 5—Okla. Savings & Loan Bldg.
- 6—Cotton Exchange Building.
- 7—Petroleum Building.

Natural Gas for Fuel at 15 to 20 Cents Per 1,000 Cubic Feet

For more than 21 years, Oklahoma City and its territory have had unlimited supplies of natural gas available to industry at very low rates.

It is a paradoxical fact that this territory now has a greater supply of this clean, cheap, and convenient fuel than was available 21 years ago, and the recent discoveries guarantee a lifetime supply.

Any manufacturer whose processes require applied heat will do well to study this phase of Oklahoma City's advantages, for this cheap fuel will be instantly available to him here at a saving that can be translated into profits.

Industrial Sites Abound at Reasonable Cost

Ideally situated industrial sites, with excellent transportation facilities, are plentiful in and adjacent to Oklahoma City. Cost of ground has been lower here for a decade than in any city of similar size in America. As greater industrial decentralization comes, this property in the heart of raw material resources, is certain to increase in value.

Grain Reservoirs Needed

Exceedingly safe investment opportunities are offered to industries using grain as raw materials. The grains grown here in 1928 are shown in total bushels or tons:

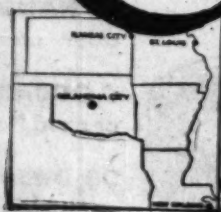

Wheat	59,062,000 Bushels
Corn	70,886,000 Bushels
Oats	26,026,000 Bushels
Hay	1,435,000 Tons
Misc.	34,524,000 Bushels

Cereal manufacturers are offered an exceptional opportunity. The raw material used in their business is produced here. The finished product is used here. A branch factory for the Great Southwest, situated right in the heart of the territory, would pay well.

There are numerous other specific opportunities for industry, some of which are listed at the bottom of this advertisement. Interested readers are invited to communicate with the Industrial Department of the Chamber of Commerce for free Market Survey Service as well as any other data of special interest. Oklahoma City offers greater opportunities right now than at any other time in the past. Oklahoma City and the surrounding market are growing as never before. You are invited to grow with us.

Oklahoma City Offers Specific Opportunities to these Industries

- Automobile Assembling Plants
- Box and Barrel Factories
- Canning Industries
- Clay Products
- Commercial Bakeries
- Creamery and Cheese Factories
- Dry Goods and Clothing Manufacturers and Jobbers

SHARKEY SIGNS
FOR MIAMI BOUT
WITH STRIBLINGClaims Guarantee of 100
Thousand Dollars.

BOSTON, Dec. 27.—(AP)—Jack Sharkey, Boston's scuffling heavyweight boxer today signed to meet Young Stribling of Macon, Ga., at Miami, Fla., on Feb. 27, 1929, in a bout to be staged by Tex Rickard, Johnny Buckner, who handles Sharkey's affairs, made the announcement and said the Boston star had been given a guarantee of \$100,000 with a privilege of 25 per cent of the gate receipts.

Buckley emphasized the fact that while no referee had been agreed upon both he and Sharkey objected to the presence of Jack Dempsey, former heavyweight champion, as third man in the ring.

The announcement failed to rest the many reports circulated that the Sharkey-Buckley combination had broken with the New York boxing promoter, Sharkey, who was put out of competition for a shot at Gene Tunney's crown by Dempsey a short time before the ex-champion met Tunney at Chicago recently started a comeback campaign.

While the coaches do not meet until Saturday, there were three rules especially that came in for comment, with the possibility that changes may be recommended to the football rules committee. One of these would make a fumbled ball "dead" at the point of recovery, another would provide for the ball to be placed in play at the start of the third quarter at the point it rested when the half ended and the third would revise the ruling on the point after touchdown.

Skaters Urged to
Write Full Names
on Entry Blanks

All skaters who will compete in the Silver Skates Derby to be held at Garfield park, Jan. 25 and 27 are requested to write their full names on the entry blanks. This request has been made by Harry Bert, chairman of the registration committee, who has taken over the responsibility that no skater compete out of his or her class. Chairman Bert explains that prize must be held up whenever there is doubt as to the age of any winner of a prize.

Silver Skates Derby

Please enter me in the Chicago Tribune Silver Skates Derby to be held Jan. 25 and 27 at Garfield park.

Name.....
Address.....
Club.....

Men's Senior, 18 and over.
Girls' Senior, 16 and over.
Boys' Intermediate, 16 and 17.
Girls' Junior, under 16.
Boys' Junior, 14 and 15.
Boys' Juvenile, under 14.

Place cross in square opposite race you wish to enter. A skater can compete in only one division.
Entries close Jan. 20 at midnight with Walter Eckersall, Sports Department, The Chicago Tribune.

CONFIRM CHICAGO-YALE GRID GAME

Confirmation that Yale and the University of Chicago eleven will meet on Stag field Oct. 17, 1931, came from the Yale Club of Chicago's father and son luncheon yesterday at the Hotel La Salle. Present at the gathering were, left to right: J. N. Whipple, Richard Bentley, L. B. Robbins, Tad Jones, F. A. Preston, John V. Farwell, James L. Houghteling and Henry A. Gardner.

Hudkins Fights Mr. De Vos,
Society's Choice, Tonight

BY WESTBROOK PEGLER.

[Chicago Tribune Press Service.]
New York, Dec. 27.—There is a promise of carnage between Ace Hudkins of Omaha, Neb., and Rene De Vos of Ostend, Belgium, to be solemnized tomorrow evening, the Right Venerable Joseph Humphreys officiating, assisted by a full lineup of bottle holders, towel swingers, and unclassified camera oglees. This is the 89th—and it is hoped, the final—publication of the bans, the ceremony having been postponed or avoided so many times already that it began to look as though the boys were trying to wiggle out of the hook.

Great social significance attaches to the occasion, as Mr. De Vos is a protégé of the socially prominent Anthony J. [Tony] Drezel Biddle Jr., of the Philadelphia Anthony J. [Tony] Drezel Biddle, who go in to dinner on state occasions two files ahead of the Philadelphia Ochelchichs and just astern of the lower case Vanderbilts.

Walker Should Know Better.

In retreating he hadn't the craft or agility to go to either side. Straight back, turning square corners, was the only course his paddling felt knew, but like Tunney in his backward attack at Soldiers' field, he was scoring clearly in retreat. A fellow tells me this is what they call a Fabian victory. I guess so.

The social leaders state that Mr. Walker intends to have carnage with the winner of Friday night's sociopugilistic affair at the Garden, with the middleweight championship of the world at stake. I think they assume too much. If they are any good at all Mr. Walker will duck them and hold carnage with Maxie Rosenbloom, Foulting Phil Kaplan, or some other toothless pugilist of the roped arena. Mr. Walker's sneers may be old, but there is nothing wrong with his business acumen.

Midwest A. C. Five Beats
Morgan Park by 50 to 25

The Midwest A. C. basketball team scored its ninth victory of the season last night, defeating the Morgan Park Clippers, 50 to 25, on the Midwest floor. The Clippers, last year's Cook county champions, were helpless against the strong attack of the Midwest team. Newman scored 18 points for the winners.

WEST STAR GRID
TEAM LOSES TWO
MEN BY INJURIESMarcus Hurts Shoulder
in Scrimmage.

San Francisco, Dec. 27.—(AP)—With heavy scrimmages over, coaches of the West teams which will meet here Saturday in the East-West charity football game, turned up their starting eleven today.

A week's practice has claimed several victims for the injured list with the West the bigger loser. When Coach Orin E. Hollingbery lined up the westerners today, two axes occupied nonplaying roles. Erick Marcus, former California half back, smashed his left shoulder in scrimmages, while Granucci, Santa Clara center, was hurt in an automobile accident. Granucci's elbow was cut and bruised, but he may yet get into the game.

Marcus is definitely out. Morton Kiser, former University of Southern California all-American quarter back, was recruited to take Marcus' place. He will have but one day of practice, but knowing the East's style of play is expected to fill in satisfactorily.

BEARS-JACKETS DRILL

Pasadena, Cal., Dec. 27.—(AP)—California's Bears and the Yellow Jackets of Georgia Tech dug their cleats into the turf of the Rose bowl here today for intensive workouts that indicated both aggregations had begun bearing down in their preparations for the inter-sectional clash New Year's day.

The claws of the Bears, first on the field in the morning, lashed the Rose bowl turf for nearly three hours. Scarcely had the thunder of their tramping subsided before Tech's Golden Tornadoes have into sight at the entrance of the bowl for a drill even more brisk than the one they went through yesterday.

After the morning's practice, Coach Price said the hardest problem the Bears faced was that of working up to a fighting pitch. Price did not seem to worry much on that score, however, for he said the Californians were running through the workouts in a businesslike manner today.

A change in the list of officials for the game was announced today. E. Hadenoch, coach of Inglewood, Cal., Hadenoch, and well known Pacific coast official, will substitute for Frank Birch as referee. Birch, who had been unable to officiate.

Coach Stagg as a student at Yale in the late eighties was one of Yale's best athletes. The desire to honor Stagg was the chief factor in granting permission to the Yale team of 1931 to make the trip to Chicago.

Tad Jones, one of the greatest football players who ever attended Yale and who has coached Old Eli eleven for a number of years, headed the decision of Yale board to permit the team to come west. Jones believes the decision will benefit Yale in inter-collegiate athletics.

In the WAKE
of the NEWSJUST SITTING AROUND.
FRIEND DON: This sitting around waiting for your foot to get so you can put your shoe on is all right the first day or two but after that not so good. You have too much time to think of your faults, and unless one's a terrible egotist he gets a terrible grudge on himself.

When I opened one neat little package there was a firecracker inside. I very gingerly pulled the fuse, and out came a little folded card which read, "This Christmas thing is being overdone, so I'm just going to wish you a bang-up Fourth of July." Rather cute, wasn't it? It was from Sandy Brown. I think you met him when we were in New York. If you didn't or if you did, we'll look him up when we go down with the Tansuans amateur boppers for the inter-city tourney in March. Sandy is always ready to pilot friends over to "Papa" Schumann's in Hoboken, and he is some pilot.

Sandy may be half right at that about this Christmas card thing. There's a lot of people to whom you really like to send cards, and there are many others with whom greeting cards are just an exchange. For myself, I rather like the sentiment of the thing. I notice this year, however, an increasing number do not send engraved cards but write just a little simple note and sign their name to it. Of course, I've been writing my name on my cards for several years just to make them a little more personal.

Speaking of personal, the doorknob rang Christmas morning and the maid came up to my room and said the little boy who delivered papers wished me a merry Christmas and was waiting. I thought that was mighty nice of him to be concerned about my health, and to wish him a merry Christmas, and she came back and said he also wished me a happy New Year and to tell me he was still waiting. Then a great light dawned, and I asked if he had not been given the little envelope I left before I went to the hospital. He hadn't. She gave it to him and came back and said he said, "I thought you must have forgotten something."

Guess I must have been delirious at the hospital. Chap came today and said I owed for some candy ordered by phone. No one knew anything about it, and he said, "Why, you ordered it yourself from the hospital for some small looking nurses." Well, maybe I did, Don, but if I did, from the small amount of the bill and the number of small looking nurses there were there, it must have been gumdrops or else they had about one piece of candy each.

I see where those Bruins took New York in basketball. Sorry to have missed that game. Remember, we saw the Celtics last year, and they were a little too clever for the local fellows. We say we spend an evening with George Halas when I get out.

Also note some bird won \$25,000 for telling how to enforce the dry law. Well, that's all right. There's a whole lot of chaps made more than \$25,000 proving the dry law can't be enforced.

Honestly, Don, I'm terribly tired of being cooped up, so don't think it's any vacation and take it off the time when I may want to go to Miami or Tia Juana this winter. You remember the trip to Cuba last winter was my 1927 vacation, so I haven't had the vacation yet. Long time ago I didn't take any vacations, and when I wanted to put several together the office had forgotten I never took them. Probably be down Saturday or Monday. Regards to the gang.

HARVEY T. WOODRUFF.

P. S.—Let me know about any packages that sound right.

U. S. BOWLERS TO
INVADE SWEDEN
IN JUNE TOURNEY

New York, Dec. 27.—(AP)—The United States will send several bowlers to Sweden next summer in an effort to take international bowling supremacy from that country, it was announced today by Joe Thum, president of the International Bowling association. The international tournament is scheduled for June 6-10 in Stockholm.

One of the teams is to be built around Billy Knox of Philadelphia, who two weeks ago rolled three perfect scores of 300.

LAST NIGHT'S HIGHLIGHTS

Chicago, N. Y. Americans, 6.
Los Angeles, 3; Detroit, 6.
Toronto, 2; Pittsburgh, 6.

New York, Dec. 27.—(Special.)—The revived Chicago Blackhawks turned back the New York Americans, 6 to 0, at Madison Square Garden, before a crowd of 10,000. Although their victory did not do much for them in the official standing of the American group, the Hawks covered themselves with considerable glory in the eyes of the fans here.

It was the brilliant young center, Vic Ripley, who scored both of Chicago's goals, the first coming in 13:30 of the first period and the second in 2:27 of the third. His first goal was a beauty when, although checked hard by the American defense, he drove the puck past Warters as he was falling to the ice.

The Americans strove valiantly all of the way but they were up against Chuck Gardiner in goal and even when they broke away through the rest of the Chicago team they could not get past him. He made 55 saves during the evening, while Roy Warters had only 36 to make.

The defeat left the Americans in a tie with the Montreal Maroons for first place in the Canadian division of the National league. The Blackhawks remained in last place but moved within one point of the Pittsburgh Pirates in the American division. Lineups:

BROKERS' LOANS SHOW DESIRE TO STEADY STOCKS

Banks Hope to See Stable Prices.

BY O. A. MATHER.

The desire of the banking authorities to stabilize the stock market, preventing both another severe decline and a further upturn, is shown in the weekly report on brokers' loans issued by the federal reserve board last night.

The report reveals the moderate decline of \$13,355,000 in loans to brokers and dealers in securities by the New York federal reserve member banks, making a total contraction of \$583,310,000 in the last three weeks. Stock loans now total \$5,891,427,000, which is the lowest point since Nov. 14. The current total, however, is \$1,379,305,000 above a year ago.

The stock market faced an unusually tight money market this week, as evidenced by call loan rates ranging from 3 to 12 per cent. But the situation evidently would have been more serious except for credit aid extended by the New York banks and the reserve system. So various dire predictions of 20 or 25 per cent call money and a break in stock prices were not realized.

Withdrawals Moderate.

It was foreseen that the interior banks and corporations would withdraw money from the stock market to meet the year-end demand for commercial settlements and dividend and interest disbursements. But such withdrawals in the last week were comparatively moderate. The interior banks reduced their loans to brokers by \$8,687,000, while corporations and other lenders drew down \$3,845,000, but the New York banks stepped into the breach by increasing their own loans by \$79,241,000.

The federal reserve banks also helped the general situation by extending additional credit. But for this action it is probable the interior banks would have withdrawn more funds from the stock market and the New York banks would not have increased their loans as much.

The weekly statement of the reserve system, also issued last night, shows net borrowings of the member banks increased \$25,859,000. The reserve banks also bought an additional \$1,000 of open market bills. Holdings of government securities declined \$58,000. Deposits increased \$95,667,000 and note circulation rose \$41,646,000.

Ratio of Reserves.

As a result of the large credit expansion, gold and total reserves decreased \$29,715,000 and \$34,830,000, respectively. The ratio of reserves to liabilities fell to 61.6 per cent, which is the lowest point in several years. The ratio a week ago was 64.5 per cent.

The largest change in the system actually transpired in the New York district, where loans and bills increased \$155,048,000 and \$25,900,000, respectively. Deposits expanded \$51,000,000 and reserves declined \$72,867,000, and the reserve ratio dropped to 50 from 63.3 per cent a week ago.

At Chicago, loans increased \$25,817,000 and deposits rose \$7,037,000. Bills and reserves remained about stationary. The reserve ratio declined to 61 from 66 per cent a week ago.

WESTINGHOUSE AUTHORIZES NEW COMMON STOCK

(Chicago Tribune Press Service.)

New York, Dec. 27.—The directors of the Westinghouse Electric and Manufacturing company today authorized the issue of additional common stock of \$100 par value, to be offered to stockholders of the company for subscription at \$100 a share, providing the company with \$31,104,460 additional capital.

The directors also authorized the redemption on March 1, 1929, at 105 per cent of the interest of the outstanding \$10,000,000 5 per cent gold bonds maturing Sept. 1, 1940, for which the stock offering will provide the funds.

Rights are given to the holders of the preferred and common stock of the company to subscribe, on or before Feb. 1, 1929, at \$105 a share for an amount of additional common stock equal to 12 1/2 per cent of the par value of their respective holdings at the close of business Jan. 1, 1929. This is equivalent to the issue of one common share for each eight common or preferred shares held, and represents the offering of 195,252 additional common shares of the company.

Lumber Production Since the Middle of Summer Has Been Below Last Year's Level

BELLAS HESS CO. TAKES CONTROL OF CHAIN GROUP

Acquires Prosperous Kinnear Stores.

(Chicago Tribune Press Service.)

New York, Dec. 27.—The mystery which has surrounded the recent advance in the shares of National Bellas Hess on the New York stock exchange was partially cleared up by confirmation of reports that the corporation is acquiring the Kinnear stores in the midwest and consisting of twenty-seven stores located in Indiana, Michigan, Illinois, Iowa, Kentucky, Minnesota and North and South Dakota.

May Acquire Another Chain.

The shares of National Bellas Hess, which sold this year as low as 41, recently touched 249 1/2 and closed today at 230. The gain in the last week has been a sharp one. The acquisition of the Kinnear stores will be on the basis of a stock exchange, the details of which have not been announced.

It also was reported today that negotiations are under way for the acquisition by the corporation of the Leonard Fitzpatrick Muller stores, with a chain in the south. The Kinnear stores have had a volume of sales for the first ten months of this year of \$2,472,392, as compared with \$2,170,542 for the same period last year.

Is an Outgrowth.

The corporation has \$700,000 of eight per cent stock outstanding and 60,000 of no par common stock. The common stock quoted on the curb market sold today at 41 1/2—down 4 points. The preferred dealt in across the counter was quoted at 135 to 150.

The National Bellas Hess corporation has \$61,670,700 out of seven per cent preferred shares, and 200,000 shares of common stock. It is an outgrowth of the National Ciolek and Suit company, formed to retail merchandise by mail, and which was merged in March, 1927, with Bellas Hess & Co., and the name changed.

General Tire Earnings Amount to \$18.40 a Share

Akron, O., Dec. 27.—(AP)—Net sales of the General Tire and Rubber company during the last year amounted to \$26,154,000, bringing in net profits to stockholders of \$2,002,000. Net earnings amounted to \$18.40 a share.

Electric Home Heating Tested as Next Move

BY LEON STOLZ.

Attention was called recently in this column to the rapid growth in the use of oil for domestic heating. Experiments are being run this winter with still another heating agent—electricity—which hitherto has been considered too expensive for the purpose in most parts of the country.

A new method of heating has been worked out by which, it is estimated, a house of seven rooms and one bath can be warmed and supplied with hot water at an annual cost of \$210.

It's Problem of Business.

The success of the experiments depends as much on business consideration as upon the new heating process. The demand for electricity falls off sharply when people go to bed and the street cars stop running. The late night load is only 20 per cent or less of peak business, but interest must be paid upon the generators and the distributing system for 24 hours a day.

Accordingly, the public service corporations can afford to sell electricity in the late night hours at extremely low costs, because any source of income then is velvet.

The mechanical difficulty lay in devising a method of making electricity bought at 2 in the morning warm a day, house at 2 o'clock the following afternoon.

The process being tried out in Fort Wayne was invented by Chester Hall, who for many years was associated with the General Electric company's subsidiary there. Mr. Hall tried it out in his own home last winter with results which he deemed encouraging. This winter the system has been installed in fifteen more homes.

Water Remains Hot.

Mr. Hall uses his cheap electricity to heat water in carefully insulated tanks where the water remains hot enough to be useful for sixteen hours. The heat can be transferred to air and blown through the house pretty much as from the ordinary hot air furnace, or the hot water itself can be distributed to radiators. The control is entirely automatic in either case.

Advocates of government ownership of electrical generators will see in the new adaptation of electricity to the home another reason for public ownership. It is interesting in this connection to remember that the success of the system depends upon the fact that electricity is sold at unequal prices.

The principal cost of electricity is not in the making of it but in distribution and sales. The generators produce it with a minimum of labor and attention, and even a political appointee might be expected to run a plant with moderate success. It takes something more than a jobholder to make an economical rate schedule.

Stock Increase Approved by Penney Shareholders

New York, Dec. 27.—(AP)—Stockholders of J. C. Penney company of New York today authorized increasing the common stock to 3,000,000 shares from 1,250,000.

INSULL FORMS UTILITY TRUST FOR INVESTMENT

Holds Securities of 23 Million.

Formation of a big Illinois investment trust was announced last night by Samuel Insull, public utility magnate. It will be known as Insull Utility Investments, Inc., and will start out with holdings of securities with a total market value between \$23,000,000 and \$24,000,000.

The new corporation, for which Insull is president, will be formed with the Illinois secretary of state today, is organized to acquire, hold, sell, and underwrite securities of all kinds. Its initial assets, however, will consist of securities of Insull managed public utilities, including substantial blocks of the common stocks on the Commonwealth Edison, Peoples Gas Light and Coke, and Middle West Utilities companies and the Public Service Company of Northern Illinois.

Scope Limited for Present.

It is stated that all of the securities desired for formation of the investment trust were acquired some time ago and that there have been no purchases within a month. The company for the present will limit its holdings and dealings largely to public utility securities, particularly securities of the Insull chain.

The new corporation also takes over Insull, Son & Co., Inc., which in turn owns Insull, Son & Co., Ltd., of London. The American company through its London subsidiary has a large security distributing business in Europe.

Samuel Insull will be president of the new Illinois company and his brother, Martin J. Insull, and his son, Samuel Insull Jr., will be vice presidents. P. J. McEnroe will be secretary and treasurer. The directors will be Walter S. Brewster, Britton I. Budd, Edward J. Doyle, Louis A. Ferguson, John F. Gilchrist, John H. Gulick, George F. Mitchell, Stuyvesant Peabody, Marshall S. Sampson, H. L. Stuart, and Waldo F. Tobey.

Large Stock Issues.

"Mr. Insull has had all of the other officers and directors intimately associated with him throughout practically all of their business or professional lives," the announcement says.

"The company contemplates issuing publicly in the near future \$6,000,000 of 5 per cent debentures and \$6,000,000 of 6 per cent preferred stock. Both issues will carry advantageous common stock subscription warrants, but the details of this financing have not yet been determined."

WRITE-OFF POLICY OF U. S. STEEL IS SHOWN IN REPORT

(Chicago Tribune Press Service.)

New York, Dec. 27.—The conservative write-off policy of the United States Steel corporation was emphasized today in an analysis which showed that the surplus at the end of 1928, instead of being about \$670,000, would be close to \$1,070,000,000, but for the fact that about \$400,000,000 has been written off from earnings against good will in the twenty-eight years of the corporation's existence.

South Side Banks Pattern After La Salle St.; To Merge

(Picture on back page.)

One of the largest consolidations of Chicago banks outside of the downtown district was announced last night. The Kenwood National bank, located at South Parkway and Forty-Seventh Street, will join the Hyde Park National bank, which is erecting a new bank building at Lake Park Avenue and Fifty-Third Street.

The names of the combined institution will be the Hyde Park-Kenwood National bank when the consolidation becomes effective about April 1. John A. Carroll, now president of the Hyde Park National, will become chairman, and Eugene E. Ford, now president of the Kenwood National, will retain that position. Other officers and employees of both banks will retain their present positions.

Total Resources.

The new institution will have total resources of about \$13,000,000, capitalization exceeding \$1,000,000, and total deposits around \$12,000,000. The combined assets of the two banks in October showed the following items: Hyde Park National—Capital, \$500,000; surplus and undivided profits,

\$592,729; deposits, \$4,113,945; total resources, \$7,267,453. Kenwood National—Capital, \$300,000; surplus and undivided profits, \$360,731; deposits, \$4,833,390; total resources, \$5,795,121.

Bank Dividend.

The merger will add another outlying bank to the chain controlled by Mr. Carroll and his associates. The others are the Jackson Park National, South Shore State, and Florence State banks, of which Mr. Carroll is chairman. He organized the Hyde Park National bank in 1915 as a state bank, but it received a national charter last summer. The Kenwood National bank was organized in 1905 as a state institution by A. K. Brown, now chairman, and was nationalized in 1911. Until 1922 the bank was controlled by Charles E. Ford, father of its present president.

The Stockmen's Trust & Savings bank yesterday declared an extra dividend of 3 per cent, and the Kaspar American State bank declared 3 per cent extra. The Northwestern Trust & Savings bank declared an extra dividend of 4 per cent, and increased surplus to \$600,000 by transferring \$100,000 from undivided profits.

FATHER DEARBORN TOPS WORLD'S LIST OF COAL CONSUMERS

Old Father Dearborn is the greatest coal consumer on the face of the earth. With the annual fuel consumption of the local metropolitan area running well over 36,000,000 tons, Chicago is using more black diamonds than all of the New England states combined, according to James P. Haynes, executive vice president of the Chicago Association of Commerce.

Chicago is also handling the largest amount of coal in the world for re-shipment either by rail or water. More than 1,500,000 cars of coal are unloaded here annually, which approximates 25 per cent of all the freight cars unloaded in the area. This is a greater volume than the coal traffic of the nation, which averages about 18 per cent of the total carloadings in the United States.

Not Room Enough to Duck So Grain Barrage Must Stop

For once Chicago board of trade members are to miss their year-end traditional fun of filling the air on Dec. 31 with flying samples of grain and flour. Owing to the fact that the board is housed at present in crowded temporary quarters while the new board of trade building is under construction, the throwing of samples has been prohibited as dangerous.

Structural Steel Orders Show Sharp Increase

New York, Dec. 27.—(AP)—Business in structural steel rebounded sharply in the week ended Dec. 25, orders totaling about 44,800 tons against 17,200 tons in preceding week.

U. S. TREASURY STATEMENT

Washington, D. C., Dec. 27.—The following is a statement of the condition of the United States treasury on Dec. 27:

Foreign Copper Price Boost Follows New Domestic Rate

(Chicago Tribune Press Service.)

New York, Dec. 27.—The copper producing companies, acting through Copper Exporters, in their export or galvanization, today increased the price of the metal to foreign buyers to 15 1/2 cents per pound. The higher figures are in accordance with the action of the copper firms in boosting the domestic rate to 16 1/2 cents yesterday.

Roumania Proposes Increase in Duty on American Autos

BUCHAREST, Roumania, Dec. 27.—(AP)—A sharp increase in certain import duties, including automobiles, was proposed to the chamber of deputies today by Michael Popovitch, minister of finance. The increased automobile customs will affect chiefly American manufacturers since they supply Roumania with 90 per cent of its cars.

General Electric Was Again a Feature of the Upturn, as It Was on Wednesday. Today the stock ran up some 6 points to 117 1/2, the highest peak it has ever attained. American Can was another strong feature of the late trading, closing at 168 1/2, up 2 1/2 points after having been even higher. Announcement of a fresh advance

\$14,000,000 State Line Generating Company

Two-Year 5 1/2% Gold Notes
Due December 1, 1930
Price 99.10 and Interest, Yielding 6.00%

The following is summarized in part from a letter of Mr. Samuel Insull, President of State Line Generating Company:

Business: State Line Generating Company was organized to furnish power at wholesale to the Commonwealth Edison Company, Public Service Company of Northern Illinois, Northern Indiana Public Service Company and Interstate Public Service Company. These four companies own directly or through subsidiaries the entire capital stock of the Company now outstanding. The Company owns a site located on the shores of Lake Michigan immediately southeast of the Illinois-Indiana state line, upon which is being built a large and advanced type of generating station, the first unit of which is expected to be in operation in the fall of 1929. Proceeds from the sale of these Notes will be used in connection with the construction of the station.

Completion: The cost of the station and initial installation of generating equipment is estimated at \$28,500,000. The owning com-

panies have obligated themselves, in the respective proportions in which they now own the Capital Stock of the Company, to furnish all necessary funds in excess of the proceeds from the sale of not to exceed \$21,000,000 principal amount of notes and/or bonds to complete the station and initial installation.

Earnings: Fifty year contracts have been entered into for the furnishing of electrical energy to the four above mentioned companies. Under the power contracts the estimated annual earnings and expenses of the Company after the completion of the 208,000 kilowatt capacity of the station now being installed are: Gross, \$7,555,850; Operating Expenses, Maintenance and Taxes (except Federal), \$4,426,350; Net Earnings, \$3,129,500, before Depreciation and Interest on the Company's maximum Funded Debt of \$21,000,000 principal amount then to be outstanding.

A circular fully descriptive of the issue will be sent upon request

HALSEY, STUART & CO. INCORPORATED

Dated December 1, 1928 and redeemable. Principal and interest payable June 1 and December 1 (without deduction for Federal Income Taxes now or hereafter deductible at the option of the holder, Halsey, Stuart & Co., Inc., in Chicago and New York. Distributions of \$1,000 and \$500. The interest of these Notes has been authorized by the Public Service Commission of Indiana. These Notes are offered for delivery when, as and if issued and accepted by us and subject to the approval of counsel. Delivery Notes will be ready for delivery on or about January 1, 1929. All statements herein are offered or based on information which we regard as reliable and which we do not guarantee them, we, ourselves, have relied upon them in the purchase of this security.

December 28, 1928.

AUBURN

—its place among Leaders
in the Motor Industry

The name Auburn, known in the automobile industry for twenty-eight years, today stands for noteworthy accomplishment which has placed the Company among the leaders in the field. It is also one of the most promising from the standpoint of efficiency of operation, complete facilities and aggressive management. The remarkable growth in recent years, and the character of its management are rapidly becoming known to the investing public.

We have accumulated many facts of interest concerning Auburn Automobile Company. This information may be had on request.

[Copyright: 1928, By The Chicago Tribune.]
Magna Copper.B. D. H.—Larger output as well as
higher prices for copper have been help-
ing Magna Copper company, which
raises its dividend rate from a \$3 to a
\$4 annual basis with the payment Jan.
15 next.The 12 dividend rate has been main-
tained regularly since July 15, 1928.For each of the first three quarters
of the year profits after depreciation
and before federal taxes were ahead of
the corresponding quarter of 1927.In the third quarter of this year such
profits were practically double those for
the third quarter of last year, being
\$1,212,441, as compared with \$774,712.This is equal to \$1.35 a share on the
capital stock earned in the 1928 period,
against 58 cents a share in the 1927
period.For the nine months ended Sept. 30,
1928, net profits after depreciation, but
before federal taxes, were \$1,812,430
comparing with \$1,035,099 for the first
nine months of 1927.This is equal to \$1.73 a share on the
stock in the 1928 period, against \$1.54
a share in the 1927 period.In the final quarter of 1927 the com-
pany showed a loss, which brought the
profits for the entire year down to
\$2.02 a share, whereas the profits for the
third quarter of this year will show
better profits than were earned in
the third quarter of 1927.The company's properties are in Ari-
zona.The stock deserves a fairly good rat-
ing.American States Public Service
(Notes Called).N. W. D.—All of the outstanding
American States Public Service company
one year gold notes, due April 30, 1929,
have been called for redemption on
Jan. 15, 1929, at par and interest at the
National Bank of the Republic, Chi-
cago, trustee.

REPUBLIC BRASS CORPORATION

BUSINESS: Republic Brass Corporation, a Maryland corporation, has recently been formed and has
acquired the entire business and assets, and assumed certain liabilities, of the Baltimore Sheet Mill of General
Cable Corporation, Dallas Brass & Copper Co., Higgins Brass & Mfg. Co., The Michigan Copper and Brass
Company, Rome Brass and Copper Company and Taunton-New Bedford Copper Company. All of the above
companies or their predecessors have been in business for at least 20 years with the exception of Higgins
Brass & Mfg. Co. (1922). Taunton-New Bedford Copper Company was founded in 1831 and Rome Brass and
Copper Company in 1866. During the last fifteen years, and in some instances for a much longer time, all of
these properties have shown profits in every year, with the sole exception of two companies in the unpre-
cedented year 1921.

CAPITALIZATION

First Mortgage 6% Sinking Fund Gold Bonds, Series A \$10,000,000

7% Cumulative Preferred Stock \$20,000,000

Class A Stock (convertible), without par value 1,000,000 shares

Common Stock, without par value 3,000,000 shares

In addition 100,000 shares are reserved against Warrants expiring December 31, 1933, for subscription at \$75 a share.
After addition 700,000 shares are reserved against conversion of Class A Stock, including Class A Stock issuable upon exercise of
Warrants.

NOTE—There are outstanding 100,000 shares of Warrants expiring December 31, 1933 to purchase 100,000 shares of Class A Stock at \$75 a share.

7% Cumulative Preferred Stock, par value \$100 a share, is preferred over the Class A Stock and Common Stock as to cumulative
dividends payable quarterly (February 1, May 1, August 1 and November 1) at the rate of \$7 a share per annum and as to assets,
in event of liquidation, to the extent of \$110 a share and accrued dividends. Redeemable as a whole or in part, at any time on thirty
days' published notice, at \$110 a share and accrued dividends.Class A Stock is entitled to dividends at the rate of \$4 per share per annum (non-cumulative unless twice earned) payable quarterly
(January 1, April 1, July 1 and October 1) and is at any time convertible into two shares of Common Stock.EARNINGS: Combined annual earnings of the properties now owned by Republic Brass Corporation
(excluding the operating results of the road grader plant acquired from Rome Brass & Copper Company
and not permanently to be owned) for the three years ended December 31, 1927, after adjustments for
non-recurring charges and credits averaging \$91,544 per annum, after interest on \$10,000,000 principal
amount of First Mortgage 6% Sinking Fund Gold Bonds, Series A, dated July 1, 1928 and after deprecia-
tion and Federal income taxes at 12%, have been certified by Messrs. Peat, Marwick, Mitchell & Co., public
accountants, as follows:Such combined earnings as above for the six months ended June 30, 1928, have been certified by
Messrs. Peat, Marwick, Mitchell & Co., public accountants, as follows:

6 months 1,849,461 350,000 1,499,461 500,000 999,461 1.97

ASSETS: The pro forma balance sheet of Republic Brass Corporation, exclusive of the aforementioned
road grader plant, as at June 30, 1928 (July 14 as to Rome Brass and Copper Company and subsidiaries)
after giving effect to the issuance of securities in connection with the acquisition of assets and for cash, the
assumption of liabilities as above, and after adjustments, including the establishment of an inventory re-
serve, as certified by Messrs. Peat, Marwick, Mitchell & Co., public accountants, shows total assets of over
\$35,900,000 (including good will at \$1), net quick assets of over \$15,400,000 and fixed assets of over \$17,400,000.
The depreciated sound value of property, plant and equipment as independently appraised for the different
companies, with adjustments for additions at cost and depreciation on a uniform basis to June 30, 1928, is
in excess of \$21,000,000.

EARLY BULGE IN CORN PRECEDES PROFIT TAKING

Wheat Mart Has Narrow Price Changes.

BY CHARLES MICHAELS.

An early bulge in corn which carried the May delivery up to \$1.00 or within 1/4 of the best figure on the crop brought in free profit taking by local and outside longs, and a reaction of 1/4 from the best price followed, with buying against bids the main factor in checking the decline. December acted tight from the start, and while short covering was less aggressive, it gained 1/4 on the May and finished at 4 1/2 on the latter, compared with 7 1/2 at one time last week. The close was 1/4 higher to 1/4 lower than the former on December, being 84 1/2¢ at the last, with May 81 1/2¢.

Wheat market was a small affair, with a range of 1/4 for the day, the finish being 1/4 lower, with December leading. The latter closed at 45 1/2¢ over May. Eye was 1/4 higher to 1/4 lower, with December 1 1/2¢ to 1 1/2¢ and May 1 1/2¢.

Evening Up in Corn.

The evening up process continued in corn, with scattered long in the December delivery gradually letting out, and the same applies to the shorts. A house with seaboard connections sold December and bought May. Deliveries of 750,000 bu on December contracts failed to have much effect on the market. Local bulls were good buyers of May early, and later some of them turned to the selling side. The open interest in the December delivery at the close on Wednesday was nearly 13,000,000 bu, and there is only three more days in which to even up the trades.

Routine news attracted little attention, although the reduction of 5,000,000 head in the estimated spring and fall pig crop was taken as indicating smaller farm consumption of corn ultimately. Country offerings were small, with purchases of 30,000 bu to arrive. The spot basis was steady to 1/4 lower. Outside markets materially outbid Chicago down state for cash grain. Buenos Aires was 1/4 to 1/2 lower for the day with May 84 1/2¢.

Whispering Horses Sell Wheat.

Wheat market showed an easy undertone the greater part of the day with houses with Winnipeg connections rather persistent sellers. Deliveries of 445,000 bu had some effect on the December, which went to 69 1/2¢ under May at the last, and led the decline. Private reports from Argentina suggested that the new crop was the largest on record. In 1923 the yield was 24,000,000 bu. Liverpool was 1/4 higher to 1/4 lower, as compared with Monday, with the December showing the most strength. Export demand at the seaboard was slow, and is expected to remain so for some days. India is reported to have bought Australian wheat for shipment as far ahead as the first half of August.

December oats went to a premium over May for the first time on the crop as a result of short covering, while a cash interest sold the December and bought May. The December acted tight from the start. Duluth wheat were on the buying side of the December crop, while the deferred deliveries were influenced by the action of wheat. No export business was reported at the seaboard.

Cities Service Company

Common Stock Rights

Full information on common stock rights issued by Cities Service Company may be obtained from us.

True Securities Co.

231 South La Salle Street, Chicago, Illinois

Public Notice in Hereby Given

A GREAT SURPRISE.

Opera of Roses Delights Winter Audience Here

**Olszewska Sings Finely in
"Der Rosenkavalier"**

BY EDWARD MOORE.

Both as work and as performance "Der Rosenkavalier" classifies as an event when it gets into the bulletins of the Civic Opera company. It is labeled a comedy for music, and as such is usually well received. Its music is brilliant and delightful. It has waltzes that haunt the memory maddeningly, the music of the rose in the second act is the spirit of all youth, the third act has a trio for the three principals. The most interesting thing of its kind as was ever set down on paper, and it ends with a duet that Mozart might have been proud to invent.

So the Civic Opera company gets around to putting it on it prepares for something extra special in the way of performance. Those who

In two important matters the cast was different from previous performances. Frida Lederer appeared as the Princess von Wendenberg, and Marjorie Gieselska as Octavia. In one of the scenes the change was for the betterment of the play, but in the other by far the worse. Octavia was the opening Chicago success story, thoroughly alive to every de-

Elsewhere there were those whose memory had caused this revival to be eagerly anticipated. There was Edith Mason, a sheer delight as Sophia, who had been the first to suggest the reason why the three principal musical numbers in which it took part can be considered three of the finest numbers ever written. There was Alexander Kipnis, who has built up the part of Baron Ochs until it is a genuine masterpiece of musical comedy. Of course, it is mannered and unfailingly funny. It is one of the biggest things

he has done in Chicago. And there were some dozen and a half more.

Robert Ringling was ill, so his partner, Tom Panning was by Howard Preston, and rather well at that. One remembers Lodovico Oliviero and Irene Pavloska as the pair of Intriguants, Alice d'Hermanov as the governess, Jose Mojica as the major-domo: many others. But the work should be given repeatedly. It is too good to miss.

Yesterday morning's recital at the Drake hotel was nearly as much a program of announcements as of music. It was three-quarters of an hour late starting, taking twenty minutes to pass a given point on the stairway, and about as much more to get seated.

Witz began to play." It was told from the stage that the management must disclaim responsibility for the delay because the room had been promised for 9 o'clock and had not been made ready.

When he finally began he played the Bach-Busoni Prelude and Fugue in D and a group of Brahms as magnificently as he had ever played here. Then more announcements: The first that Mrs. Samuel Insull had lost a bag and offered a reward for its return; that the Hoidas had been asked, Mr. Horowitz's announced concertist, was "alleged" to have the flu and would not appear, but that Mr. Horowitz had kindly consented to fill in the time by playing extra numbers. Then some more announcements: That the fact that the

had been work all night trying to get the ballroom in shape for the concert.

At last reports Mr. Horowitz had missed the train for New York that for a time he was planning to catch.

MARKS BROS.

There'll Be "WHOOPEE"
At the Granada and Marbro
NEW YEAR'S EVE AT MIDNIGHT
Twenty celebrated acts in a brilliant stage revel
including all the greatest stars from the loop
revues and musical comedies. An entirely new
program including photoplay for that perform-
ance only.
THERE WILL BE DANCING UNTIL DAWN
IN THE GRANADA LOBBY TO THE MUSIC
OF BENNY MEROFF'S ENTIRE ORCHESTRA
All Seats \$1.65
No seats are reserved, but tickets must be
purchased in advance. Buy your tickets today
and choose between main floor or balcony.

IMPORTANT NOTICE!
Do not purchase tickets from scalpers. It is not necessary
to pay more than the price mentioned above, and those
applying at the Granada and Marbro box offices today and
tomorrow can be taken care of.
